WHY CHOOSE US? 核心优势

47-Year Manufacturing Legacy
Supplying the world with ISO-certified precision since 1977
47年匠心传承, 全球外科医生的首选合作伙伴"

End-to-End Contract Manufacturing
OEM/ODM solutions for world-leading medical brands"
为国际顶尖品牌提供一站式器械代工服务

Unmatched Production Capacity

250+ designs of single-use steel instruments

13,000+ sq. ft. state-of-the-art facility

每件产品全程可追溯的质量体系" (Fully traceable production system)

Global Footprint
Exporting to 40+ countries with SGS-compliant logistics
服务全球40国, 严格符合国际运输标准

SURGICAL (PVT) LIMITED

Our Vision

"To be the global leader in surgical instrument manufacturing, recognized for our passion, authenticity, and expertise."

Our Mission

"To sustainably produce, maintain, and distribute innovative medical devices globally, prioritizing continuous education, safety, and exceptional quality."

Trust

Building strong, reliable relationships with our clients and partners.

Teamwork

Fostering a collaborative environment.

Improvement

Striving for excellence by constantly enhancing.

Satisfaction

Committed to exceeding customer expectations.

Innovation

Embracing new technologies and ideas.

Sustainability

Ensuring our practices and products are environmentally responsible.

CEO'S MESSAGE 总裁寄语

In our 47-year journey, we've learned that great instruments don't just perform – they inspire confidence. Every scalpel and scissor we make carries the weight of a surgeon's trust and a patient's life. That's why we blend traditional craftsmanship with quality systems, creating tools that set new benchmarks in global healthcare.

47年来,我们深知:优秀器械不止于功能,更在于传递信心。每一把海科出品的手术刀剪,都承载着医者信任与患者生命。因此,我们以传统工艺为魂,智能质检为脉,持续为全球医疗设立新标准。"

NASAR MALIK, Founder & CEO

DRIVING SUSTAINABILITY IN SURGICAL TOOLS MANUFACTURING

SUSTAINABLE DEVELOPMENT GOALS

Good Health and Well Being

As a premier surgical instruments company, we support UN Sustainable Development Goal by providing precision tools that elevate surgical procedures, improving healthcare outcomes and fostering global well-being

Gender Equality

In our organization, we promote a welcoming atmosphere, ensuring equal opportunities for all, irrespective of gender.

Responsible Consumption and Production

Committed to sustainability, our organization aligns with UN Goal 12 by implementing responsible manufacturing practices for surgical instruments, minimizing environmental impact, and advancing a circular economy in the medical device industry.

SINGLE - USE STEEL SURGICAL INSTRUMENTS

Single-use instruments are a ready-to-use, disposable solution for procedures that can help reduce the risk of contamination. A variety of designs and grades are available to suit your procedural needs.
