HICO

SURGICAL (PVT) LIMITED

Our Vision

"To be the global leader in surgical instrument manufacturing, recognized for our passion, authenticity, and expertise."

Our Mission

"To sustainably produce, maintain, and distribute innovative medical devices globally, prioritizing continuous education, safety, and exceptional quality."

Trust

Building strong, reliable relationships with our clients and partners.

Teamwork

Fostering a collaborative environment.

Improvement

Striving for excellence by constantly enhancing.

Satisfaction

Committed to exceeding customer expectations.

Innovation

Embracing new technologies and ideas.

Sustainability

Ensuring our practices and products are environmentally responsible.

CEO'S MESSAGE

In our 47-year journey, we've learned that great instruments don't just perform – they inspire confidence. Every scalpel and scissor we make carries the weight of a surgeon's trust and a patient's life. That's why we blend traditional craftsmanship with quality systems, creating tools that set new benchmarks in global healthcare.

NASAR MALIK, Founder & CEO

DRIVING SUSTAINABILITY IN SURGICAL TOOLS MANUFACTURING

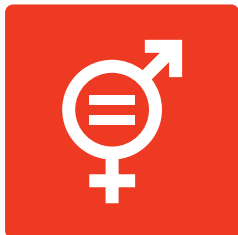

SUSTAINABLE DEVELOPMENT GOALS

Good Health and Well Being

As a premier surgical instruments company, we support UN Sustainable Development Goal by providing precision tools that elevate surgical procedures, improving healthcare outcomes and fostering global well-being

Gender Equality

In our organization, we promote a welcoming atmosphere, ensuring equal opportunities for all, irrespective of gender.

Responsible Consumption and Production

Committed to sustainability, our organization aligns with UN Goal 12 by implementing responsible manufacturing practices for surgical instruments, minimizing environmental impact, and advancing a circular economy in the medical device industry.

SINGLE - USE STEEL SURGICAL INSTRUMENTS

Single-use instruments are a ready-to-use, disposable solution for procedures that can help reduce the risk of contamination. A variety of designs and grades are available to suit your procedural needs.
