

Company Profile

1. Company Information:

Company Name: DELTEGCRC Corrosion & Refractory Consultancy

Established: 2005

Headquarters: Volksrust
Mpumalanga Province
South Africa.

Legal Status: Closed Corporation. (cc)

CK No.: 2005/096225/23

VAT No.: 4340221300.

Ownership / Key Stakeholders: Privately owned.

2. Mission & Vision:

Vision:

To be a leading, trusted partner for industrial clients by providing expert corrosion prevention and refractory solutions that extend asset life, improve safety, and optimize operating costs.

Mission:

To deliver high-quality, cost-effective, and sustainable corrosion & refractory consultancy services, combining technical expertise, innovation, and integrity. We aim to help clients reduce downtime, minimize failures, and maximize performance through tailored solutions.

3. Core Values:

- Technical Excellence
- Integrity & Transparency
- Reliability & Responsiveness
- Safety, Health & Environment (SHE) First
- Innovation
- Customer-Centric Approach

4. Services:

DELTEGCRC offers a comprehensive suite of services in the fields of corrosion engineering and refractory systems, including:

- Consultancy, Audits and Technical Support.
- Corrosion risk assessment.
- Refractory lining inspections & failure analysis
- Material selection and specification
- Design & Engineering
- Corrosion-resistant lining systems (concrete, steel)
- Refractory lining design for kilns, furnaces, reactors etc.
- Installation & Maintenance – Quality Control and Inspections.

- Corrosion lining installation and protective coatings
- Scheduled maintenance, condition monitoring
- Quality assurance & third-party inspections
- Project Management & Shutdown Services
- Turnaround planning
- On-site supervision
- Training & Support: Client training for staff in corrosion control & refractory maintenance
- Development of SOPs, method statements.
- Monitoring systems development and implementation.

5. *Industries Served:*

Typical sectors where DELTEGCRC can provide services:

- Steel, iron & ferro-alloys
- Cement, lime & refractory materials production
- Petrochemical & chemical processing
- Power generation
- Mining & metals
- Non-ferrous metals
- Glass, ceramics & furnace industries
- Oil & gas (refineries, pipelines, storage)
- Food & beverage (where corrosion-resistant materials needed)

6. *Competitive Advantages:*

- Experienced technical team with corrosion and refractory specialists
- Ability to develop and specify custom solutions for challenging environments
- Strong safety, health, environment & quality (SHEQ) management
- Fast response times and strong project execution capability
- Strong relationships with suppliers of materials and linings.

7. *Quality, Safety & Compliance:*

Regulatory Compliance: Adherence to relevant industry and regulatory standards (local and international)

DELTEGCRC is committed to comply to all Safety Standards & Regulations as per the Client's requirements.

8. *Organisation & Key Personnel:*

Leadership: Koos Delport - MD & Technical Consultant.

Technical Team: Juan-Pierre Delport – Supervision, Quality and Safety.
