Subject: update on status

Dear Peter,

Greetings. My name is Chad Boulanger and I am a [REDACTED] shareholder. I have been somewhat involved with and copied on many of the e-mails going back and forth with the various parties since day one. I can certainly appreciate that there are many moving parts and issues to get through. Unfortunately, there has not been very much communication that is being shared and what would appear very limited progress. I am sure that there is much going on behind the scenes.

I was hoping that perhaps you could shed some light on where we currently are and what you would think to be the expectations going forward. [REDACTED]

[REDACTED]

Finally, do you have any clarification on whether [REDACTED] Mind Med has a partnership or relationship with Ceruvia, in particular with BOL-148?

Any answers or input that you could share, would be very appreciated. Thank you in advance for your time and consideration. I look forward to your response.

Chad

We also have no knowledge of the Ceruvia arrangements you asked about; however, MindMed informs us that MindMed does not have an agreement with Ceruvia, and that if they did, they would have disclosed it. [REDACTED]
[REDACTED]

I hope that assists. Please let me know of any additional questions.

All the best,

Peter
