

Announcing the 2027

In 2026, the PPC Webinar Series received more than 6,000 registrations from healthcare providers, professionals, educators, family members, and caregivers. Through live and recorded sessions, participants expanded their knowledge and understanding of pediatric palliative and hospice care. Hundreds of attendees completed continuing education (CE) requirements for nursing or social work, and more than 100 past webinars were purchased from the PPC Webinar Series Library for training and education.

As we planned the 2027 PPC Webinar Series, we carefully considered attendee feedback and suggestions. Thank you for helping shape our educational offerings. We look forward to another year of meaningful and informative programming.

Registration for the 2027 PPC Webinar Series opens December 1!

Register individually or as a group for one webinar or the entire series. Discounts apply for multiple webinars and group registration.

About the Series

The Pediatric Palliative Care Webinar Series is a collaboration between Pennsylvania's Pediatric Palliative Care Coalition (PPCC) and Children's Hospice & Palliative Care Coalition of California (CHPCC). The series was created to raise the visibility of pediatric palliative care in the United States and to build clinicians' competencies and confidence in providing care to children.

Pediatric Palliative Care Coalitions are dedicated to advancing access to quality pediatric palliative care and bereavement support through education, advocacy, research and support. Statewide PPCCs represent hospital systems, home health and hospice agencies, community organizations, government leaders and families in a commitment to optimize the quality of life for every child living with a life-threatening illness.

The PPC Webinar Series is produced by PPCC and CHPCC which are nonprofit organizations. All CE is handled by CCCC. Any proceeds from the PPC Webinar Series or Archived Webinars are rolled back into the webinar series. Our goal is to cover our costs and provide low-cost, high-quality education to as many in the field as possible. To help defray the costs of the series and provide scholarships, please consider a donation.
