Weather & Market Cancellation:

- In the event of bad weather, we would like to give at least 24 hours' notice of the cancellation. Ideally notification of the cancellation will be given by 8am on the Saturday before the market. This will prevent/reduce food & perishable items to be wasted on the day. 24 hours will also provide our visitors more notice of the cancellation. However, in the event of sudden weather changes, stall holders will be notified no later than 6am on the day of the event.
- While refunds are not given; a discount for a future event will be given. This discount amount will be announced within a week after the market cancellation. As the event organizer, the non-refundable expenses need to be calculated. Stall holders that pay with cash will be sent a discounted invoice in the event on a cancellation.
- Stall holders are responsible for the protection of their own products in all weather conditions. The event organizer is not responsible for any damages, loss or injury caused by weather conditions.

Windy Conditions:

- Leading up to each market I monitor various weather apps. Sometimes these apps are correct and other times they are wrong. I can only make decisions with the information in front of me and many times it's uncertain how the weather will turn out.
- With this being said, I try to make the best and safest decision when it comes to trading and the weather forecast. I ask for patience and understanding while dealing with uncertain situations.
- **Please note that it is all our responsibility to try and make the right decision. If for whatever reasons you feel unsafe to trade, please make your own independent decision. All stallholders should have their own access to weather apps and monitor the conditions themselves.**
- There will be times I will cancel in advance with the weather, however every situation is different.
- Wind is our biggest threat on the day of the market. Most of the time we are fine, but we need to be prepared for unexpected wind conditions.
- Standard water weights are **not sufficient**. Unless they are filled with a heavier substance like sand or concrete. Water will not be heavy enough. Below I have provided a link to sandbag weights that hold 20kg. These weights secure to the leg preventing the weight and leg from separating. You can use alternative weights, this is just an affordable suggestion.

https://www.bunnings.com.au/oztrail-commercial-sand-bag-kit_p3192699

- It is important that weights are physically on the gazebo leg. String attached to the leg and weight is not enough. It must be properly anchored to the leg.
- If weights are not sufficient or not to standard (windy or not), I will ask the stallholder to either take down the gazebo or remove the canopy top & walls to prevent an incident.
- **Umbrellas:** All umbrellas must be taken down in the event of high winds. Also umbrellas must be on a 20kg stand.
- During a windy episode: any gazebos that do not look sturdy or secure will be asked to either take down the gazebo or remove the canopy tops/walls.
- Please be understanding and compliant when asked to take this down. It's all for safety reasons.

Food Stalls:

- All stalls selling food must all be registered under the Central Coast Council. If you require the application form for Council, please ask the event organizer.
- All food stalls must hold current products and public liability insurance to a minimum of 10 million dollars.
- Stalls that are selling food products and consumable goods must be registered with the NSW Food Authority.
- Water access is not available at this event.
- Please ensure that there are drop sheets/cardboard placed under the BBQ to catch any grease and prevent waste on the reserve area.
- All mobile food owners and/or operators are required to seek Council approval to ensure compliance with the Local Government Act 1993, the Food Act 2003 and Food Standards Code by contacting Council's Compliance section
