PROFILE

Where Design Vision Meets Project Discipline

”

True luxury lies in the seamless integration of vision and execution - where artistic excellence meets unwavering accountability.

— Sara Mann, Design Principal

Sara Mann is the Principal Designer and Founder of Sara Mann Interior Design (SMID), a boutique studio built on an uncompromising commitment to excellence and currently pursuing NCIDQ certification. Trained within the world's most distinguished design firms before founding her own practice, Sara engineers' spatial experiences across international developments, hospitality groups, and elite aviation projects. Bridging bold creative vision with the technical realities of construction and executing without compromise.

Featured Projects

Bayview Place

RICHMOND HILL, ON · 14-STOREY HIGH-RISE · 2025

Design Style: *Contemporary-Transitional*

SMID reimagined the common areas for this 1989 high-rise, curating boutique-grade elements to elevate the resident experience and enhance property value. Tasked with revitalizing the typical corridors and elevator lobbies, Sara Mann envisioned a cohesive, sophisticated aesthetic that honors the building's stature while introducing contemporary luxury. Through a meticulous selection of textures, refined lighting, and bespoke finishes, the outdated spaces were transformed into warm, welcoming transits that feel both exclusive and timeless.

Monarchy

MISSISSAUGA, ON · TWIN 23-STOREY TOWERS · 2024

Design Style: *Contemporary*

SMID redesigned the public spaces for this 1991 Mississauga high-rise, introducing a sophisticated Contemporary style. SMID curated a striking dialogue of textures: monumental, full-body porcelain wall slabs anchored the lobbies, balanced by metallic-finish wallcoverings. Bespoke colorpoint carpeting wove classic motifs with contemporary lines, infusing the corridors with a refined energy that elevated the resident experience.

Bellair on the Park

CONDOMINIUM · COMMON AREA REDESIGN · 2024

Design Style: *Modern Luxury*

SMID conceptualized the spatial planning, curated the material palette, and formulated the schematic layouts for this Brampton condominium refurbishment. The comprehensive presentation to the Condo Board integrated tactile mood boards, luxury material selections, and optimized space-use strategies to redefine the arrival lobby, lounge, and elevator landings.

Featured Projects, Continued

Kalligan Court

RESIDENTIAL

SMID developed a cohesive three-level residential concept blending structural modernization with luxury detailing. Through immersive material workshops and photorealistic 3D renderings, stakeholders engaged textures and finishes firsthand, aligning high-end aesthetics, investment objectives and reducing procurement risks.

Oxford Triplex

RESIDENTIAL

A complete transformation of a multi-unit residence, reimagined through a new spatial layout to elevate flow, functionality, and livability across each independent dwelling, resulting in a swift sale upon completion.

Estate Retreat

LUXURY PRIVATE RESIDENCE

SMID was commissioned to deliver digital sketching services for an exclusive private client, visualizing a serene estate property's site plan, spatial configuration, and materiality, to facilitate stakeholder approval before land acquisition.

Grillado's Steak & Grill

RESTAURANT & HOSPITALITY · ON, LAVAL QC & MONTREAL QC

Led a multi-site restaurant rollout, aligning layout, lighting, and material selections with brand identity, acoustics, and operational efficiency across three locations. Established a cohesive design framework and equipped the owner to independently execute future franchise sites, reducing long-term design costs.

Cross-Industry Design Background

Sara's independent SMID projects are backed by a career foundation spanning premium residential, hospitality and aerospace sectors, cross-industry experience that shapes her market-ready, execution-driven approach.

Bombardier Aerospace

PRIVATE JET INTERIORS

Sara Mann provided interior design/project management for Bombardier jets by overseeing material sourcing, detailing, redesign and client sign-off, and she devised lavatory, cabin and galley concepts; managed high-value accounts; evaluated feasibility and budgets; prepared specs; and led supplier and stakeholder meetings.

Project design credit: Bombardier

Andres Escobar & Associates

HIGH-RISE, HOSPITALITY & RESIDENTIAL

Sara worked alongside internationally prolific designer Andres Escobar, providing design support from concept and site surveys through FF&E sourcing and design-development documentation. She managed high-end material specification and logistics for luxury hotels, resorts and high-rises, and coordinated clients and marketing.

Trusted Across the Project Table

”

Sara approaches design as a discipline rooted in curiosity, empathy and responsibility, building genuine trust with every client and partner.

DMEX CONSTRUCTION

”

Her strong grasp of budgets kept projects on schedule, and her ability to guide condo boards to consensus consistently stood out.

MODERN RENO PLUS

”

A highly professional, trusted client advocate who raises concerns early and respectfully, recommended without hesitation.
