In the first half of the video, we explain the financial results for FY2025 and the forecasts for FY2026, together with the deteriorating situation in the Middle East and our response to it. In the latter half, we explain that we have steadily executed initiatives based on our Medium-Term Management Plan, thereby securing stable profits in “K” LINE’s own businesses, even in the face of the broad range of uncertainties in the business environment. We also discuss our ongoing efforts to advance considerations for the next Medium-Term Management Plan with a view toward the future.

“K” LINE With details the progress of the Medium-Term Management Plan on a quarterly basis, providing explanations of the latest forecasts and also focuses on initiatives which consider the three important points of the Medium-Term Management Plan, specifically, the capital policy, business strategy, and the functional strategy.

“K” LINE aims to deepen understanding of the Medium-Term Management Plan among business sites on land and sea within the Group, globally promote internal communication and information sharing, encourage a sense of solidarity as a source of the Group’s strength, and reinforce the foundation of its business operations. “K” LINE has posted the video on its official website in addition to “K” LINE With to make outside stakeholders more aware of the Company’s activities and to further enhance their understanding of our initiatives.
