

C&S SPOTLESS CLEANING

Sparkling Clean, Every Time.

DEEP CLEANING vs STANDARD CLEANING

A deep cleaning, as the name suggests, is an extensive process designed to significantly diminish dirt and dust in your home. However, it involves more than just putting in extra effort into your usual cleaning tasks. Deep cleaning delves deeper to eliminate dirt, grime, soap scum, and other buildup throughout your home. This service goes beyond standard cleaning, providing a more meticulous cleaning experience. Typically, deep cleaning requires more time than general cleaning services, particularly when you arrange for a deep clean of your entire residence. It includes extensive detail work, which demands additional effort.

KITCHEN:

- Cleaning under and behind appliances **
- Cleaning grout lines on countertops and backsplashes
