

INTRODUCTION TO COLLECTING DIGITAL EVIDENCE FOR INVESTIGATORS

COURSE OVERVIEW

Those involved in conducting civil or criminal investigations may have to identify, collect, seize and handle digital devices or digital material. This course has been designed to ensure that investigators know how to correctly gather, manage and handle digital evidence.

LEARNING OUTCOMES

- Explain and apply the Digital Evidence Principles in the identification, search and seizure of digital evidence in criminal and civil investigations.
- Explain the offences created by the Computer Misuse Act 1990.
- Plan and prepare for the search and seizure of digital evidence.
- Acquire digital evidence from devices using procedures, processes and best practice to ensure the integrity of the evidence is preserved.
- Comply with the Attorney Generals Guidelines on Disclosure (2024) and the Criminal Procedure and Investigations 1996, in relation to digital material in investigations

COURSE FORMAT

Duration: Two days

Method: In person

Materials: Course handouts provided

Certification: Completion certificate provided

AUDIENCE

This course has been designed for civil and criminal investigators who may be involved in gathering and managing digital evidence.
