ADVOKATE

A — Amount of Time
This should be the amount of time that the witness had the suspect under observation.

D — Distance
This is the distance between the witness and the suspect during the observation.

V — Visibility
This should detail the visibility conditions during the observation e.g. it was a clear, fine day.

O — Obstructions
Any obstructions to what was being seen should be recorded. The obstruction may be temporary or may partially stop the observation.

K — Known to the Witness
This part records if the individual is known to the witness or if the witness has seen the individual before the observation.

A — Any Reason to Remember
This should detail whether there is any reason as to why the witness remembers the individual or the event that was observed.

T — Time Elapsed
This details the time that has elapsed between the witness seeing the individual and providing that description to the investigator.

E — Errors
This should detail any errors in the description provided by the witness between the first description and any subsequent description provided.
