PARTNERSHIP WORKING

Here's some helpful starting questions when working in partnership to tackle waste crime. Remember share what is necessary and relevant, use the appropriate information-sharing route, and document the purpose and decision.

- What are we seeing that others may not be seeing?
- Which operators, sites, vehicles or locations are recurring?
- Are there linked complaints or other offence types we may need to consider?
- What tools and powers does the organisation have that we don't but would be helpful to utilise as part of the case.
- Where are the intelligence gaps?
- What lawful information-sharing route is available?
- What organisation is best placed to take the next action?
- What is the threat, risk and harm?
- What would increase the risk?
- What would reduce the risk?
- Who is impacted?
- What action are we each taking?
- When will we review the position?
