

Game Play & Rules

- Read all of this out loud to all players. Listen closely, you will need this info! Do not pre-read any of the finds. Go in order and don't jump. If you can't find one then move on.
- The game is designed to get you out on an adventure, experience the *22 acres* around you and have fun finding hidden treasures together.
- Use our trails, maps, pictures and hints to find water safe containers that you will sign, date and leave a note on given paper. Each find is worth one point. You can earn extra credit on some finds. Some of these boxes have trinkets and treasures you can trade out for (one per winner). We love to see treasures from where our guests are from! If you forgot a trade no big deal, get us next time. Some containers are just big enough for the pen and paper. Please put them back as you found them!
- The property line is marked on the right side and the center by *orange and blue ribbons* on trees. There are no property markers to the left so please stay on the trail and don't venture off property.
- You can all play on one team, make separate teams or play every adventurer for themselves! See who can collect the most points. Loser cooks dinner or gathers fire wood!
- Going down the trail is always the easiest. Coming back up can be tough so take your time, bring plenty of water and a snack.
- The adventure can take anywhere from 45 minutes to 3 hours. Take longer if you like.

Find #1

Start on the flat gravel area below the deck. The trail leads down to the right. You will cross over a large down tree to the first drainage ditch crossing.

Mossy Rock - Teal

This treasure is a trinket treasure! Grab a small treasure and trade if you can.

Notes

As you look at my gorgeous friends green beard He holds a treasure below. As I'm sure you can imagine he likes to rock and roll. A pile of hard rock is his jam.

Photos

Extra Credit!

Who found this box? You can double your find score from 1 to 2 if you can tell a fellow adventurer's birthday, middle name and favorite animal.

Who will it be?

Find #2

Indian Flats - Brown

Sign, date and leave us a note! *Remember this information!*

Notes

We know these mountains were inhabited by the *Muscogee (Creek), Yuchi, Chickasaw, Choctaw, Cherokee, Shawnee, and Seneca*. We have seen some clues they found this a great spot to hang out and enjoy.

Find the big Oak Tree in the center of the flat area. It's two trees in one and takes at least 2 people to hug it. Hug that dang tree and walk 90 paces South West at 245 degrees. Your now on top of another of Mossy's friends.

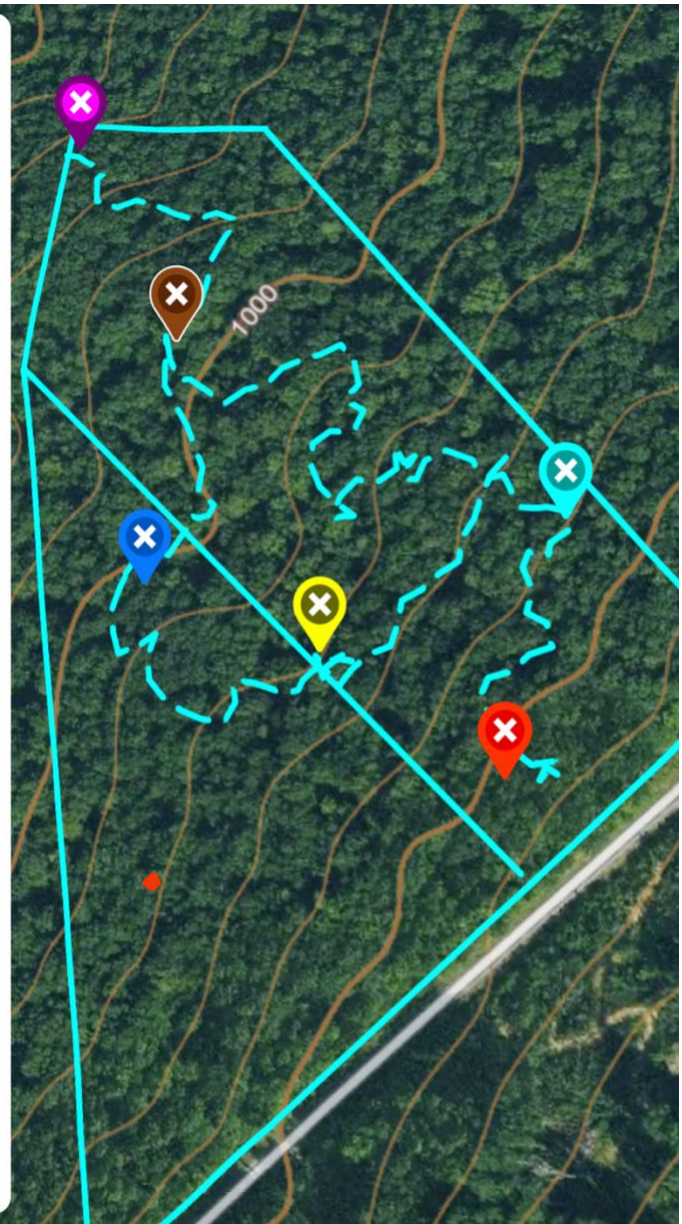

I like to test my boundaries and step outside the box sometimes. I mean, pushing it a bit is sometimes the root of our success!

Photos

Helper Hint!

The tools you need are within your grasp. All you need is love and hugs!

Find #3

Point Park 🤔 - Purple

This is a trinket find! Trade out a treasure!

Notes

Congratulations! You are at the lowest point of Canopy! Remember it's a tough hike back up. Grab a snack! Can you see the pink and green tape around the tree? Good, you are in the right area. I like being close to my friends like Mossy but when it gets dark and cold I like to hole up.

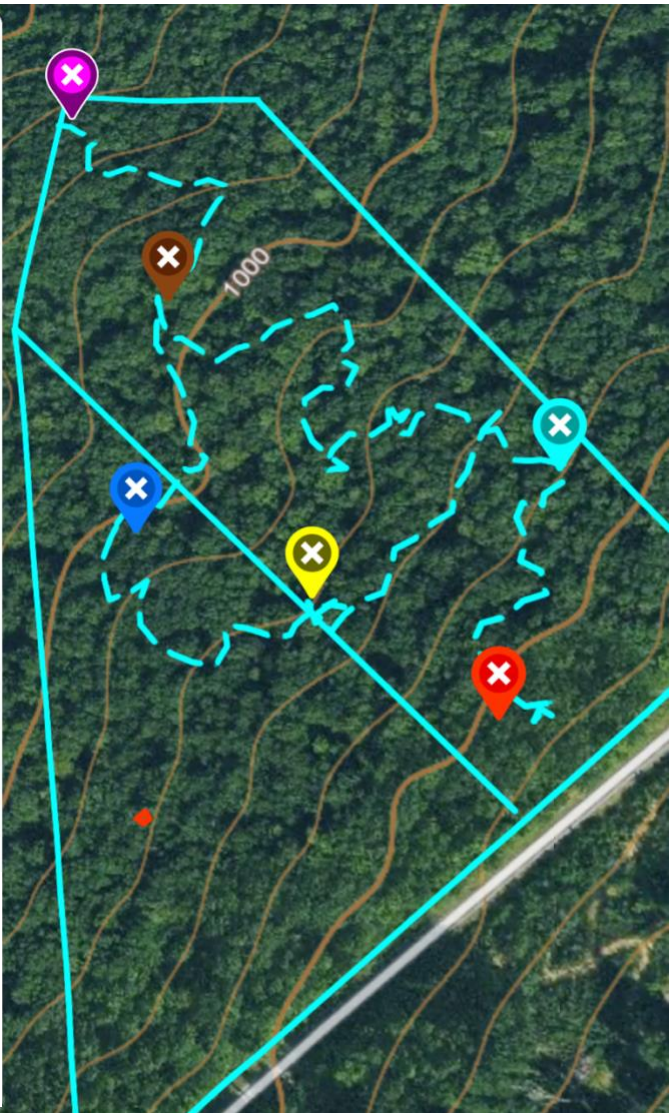

Photos

Prize! Are you paying attention!?

The person who finds this treasure and answers the following question correctly gets to take one point away from another adventurer at the end! **Find the treasure then answer the question.**

What color are the boundary markers and how many acres is Canopy?

Find #4

Mossy's Lovers Triangle - Blue

Small treasure box. Write your name and date on the paper. **This is an incognito find.**

Give yourself 3 points!

Notes

Help! I have fallen and can't get up. Good thing another of Mossy's friends caught me. Sometimes when you fall you just need to get up, walk past it and look up!

Photos

Insightful Info:

Did you know that Lover's Leap at Rock City was named after **the Cherokee legend of two young lovers, a brave named Sautee and a beautiful maiden named Nacoochee**, from two feuding tribes?

Find #5

Critter Hole! - Yellow

Sign, date and answer the extra credit!

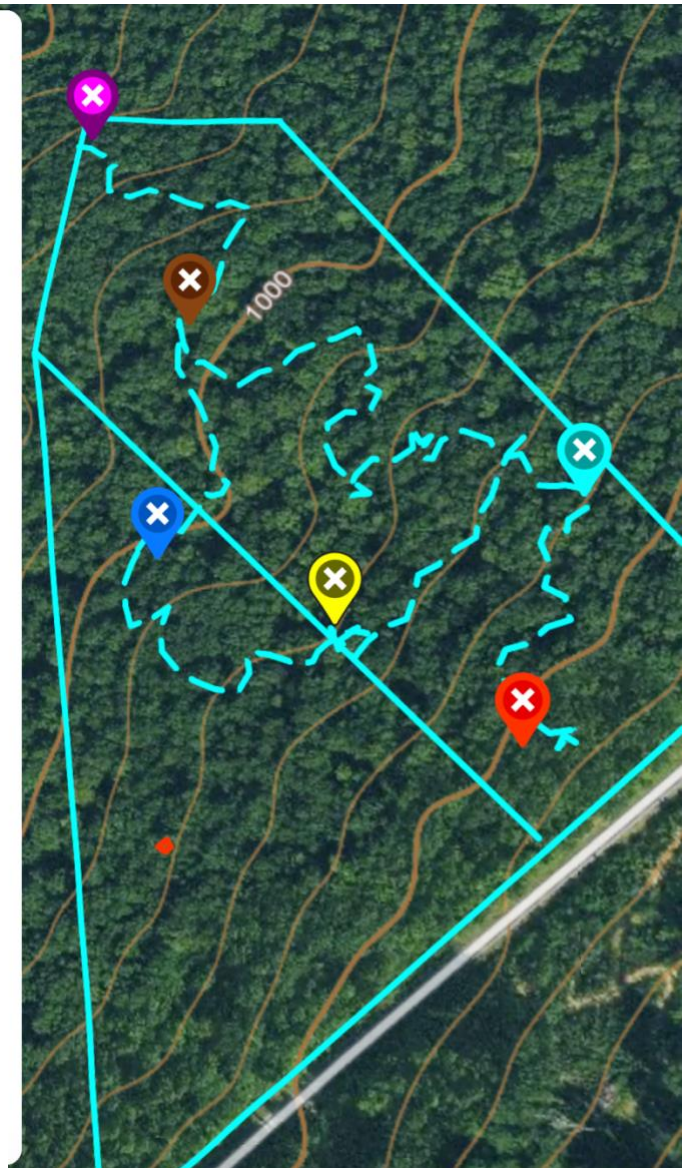

Did you know that Bald Eagles, Hawks and Owls are all around you right now? Well the critters around here sure do! If you were a critter what would be the first thing you do when you come out of your hole? Birds fly, that's where I'd put my eye.

Photos

Extra Credit!

Name two of the Indian tribes that used to inhabit these mountains for 2 extra points. For another point, what was the name of the tribe associated with the Lovers Leap legend?

Score Card:

Add up your scores including your extra credit for each find. Add your total at the end to see who is the winner!

Name: Total:	Mossy Rock	Indian flats	Point Park	Lover's Triangle	Critter Hole	Undercut

Take this home with you to put on your refrigerator!

Don't forget to gloat about your epic win!!

Thanks for staying and playing with us! Come again soon!
