

LIFE PATH WORKSHEET

Month

Day

Year

Instructions for Calculating Life Path

Write down your birth date in numerical terms (Ex: January=1, July=7, November =11)

You will be reducing each set of numbers (Month, Day, Year) down to a single digit by adding individual digits together until you come down to a single number.

Below are 2 examples.

IMPORTANT: If you have an 11, 22 or 33, anywhere in your calculations, do not reduce them as they are Master Numbers.

EXAMPLE 1: March 27, 1961

0	3	
(0 + 3 = 3)		
		3
(3+9+8=20)		
(2+0=2)		

2	7	
(2+7=9)		
		9
2 Life Path		

1	9	6	1	
(1+9+6+1=17)				
				17
(1+7=8)				
				8

EXAMPLE 2: June 22, 1949

0	6	
(0 + 6 = 6)		
		6
(6+22+6=33)		

2	2	
Master # - Do Not Reduce		
		22
33/6 Life Path		

1	9	4	9	
(1+9+4+9=24)				
				24
(2+4=6)				
				6

33 is a Master Number - Do No Reduce
