PLASTIC REDUCTION

Significantly reduce plastic usage by eliminating the need for a plastic base or hinge, resulting on average 50% less plastic compared to traditional packaging options.

IMPROVED EXPERIENCE

The combination of a tight lid fit, ultra-clarified PET lid, and durable construction provides a premium packaging experience for customers. It ensures food remains fresh and visually appealing.

SECURE LID FIT

Tight lid fit ensures a secure seal, preventing spills and leaks during transport. This feature helps to maintain the freshness and integrity of the food products.

THERMOFORMED PAPER

Thermoformed paper provides superior rigidity and structural integrity, ensuring the containers maintain their shape and protect the contents during transport and handling.

DUAL COATED PAPER

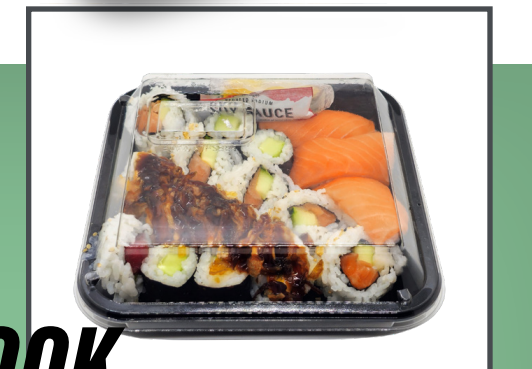

Dual PE-coating provides exceptional moisture and grease resistance. This feature enhances durability, prevents leaks, and offers a superior barrier against external contaminants.
