

Our cakes are baked 100% from scratch and only using the best freshest ingredients. Because they are baked entirely from scratch they are slightly more dense than regular cakes, and have a short shelf life, as such is best to consume the day of your event or keep refrigerated for no more than 3 days. Our cakes taste better when served at room temperature as we use real butter in all our buttercreams. We have a \$150 min. for any custom order. For tiered cakes you can choose different flavors and fillings per tier; and up to 2 complementary fresh fruit filling at no extra cost. (fresh fruit such as strawberry slices). All the flavors below are available for our custom cakes.
