## Mowing / Watering / Weeding Schedule

Watering is currently set for every other day and we are working on moving the time to later at night. Please do not change the timers we are having problems with the water pressure and any change could ruin the whole system. If you have a problem please notify the management through the web page or the email address for Western Management.

We continue to have problems with homeowners not picking up after their pets please be courteous and respect our community. Your backyards must be cleaned in order for landscapers to mow if you have any pet waste in the backyard they will not mow.
