The Cody Heritage Museum Board of Directors has been working hard on the **Heritage Garden** on the west side of the museum. The garden is a permanent living exhibit consisting of an outdoor education area, native plants, pollinator plants, wildflowers, and grasses.

Native Elements Landscape designer Bobbie Holder has generously donated the design plans for the garden. It is a beautiful setting that has already become a huge asset to Cody and to Sheridan Avenue.

A Fresno plow, 4 benches, and 4 historic wagon wheels have also been donated. Highlights of the garden are the historic Halfway Stage Stop sign and a life-size bronze monument!

There is a meandering sidewalk in the garden that is being lined with brick pavers purchased by Cody folks as a fundraiser for the **Heritage Garden**. The red pavers are a complement to the museum building and original construction c. 1907. They are 4" x 8" in size and will include 2 lines of text.

The price of each brick is \$225. It will be an additional \$10 for a third line.

Our Cody roots run **deep** – please help plant **yours** in our garden.

With thanks,

Geri Hockhalter
