GET TO KNOW US A LITTLE BETTER

When Elam Esh began building furniture in 1990 for a neighbor's woodworking shop, he studied furniture journals and built his own designs in his spare time. Soon, demand for his design led to a start-up business in a barn on his father's farm. At the suggestion of a friend, Elam found that his interest in balance and perception was a good match for the clean lines of Mission and Shaker style furniture. Over twenty years later, the Christian morals and hard work ethic of growing up on the farm continue to be the guiding principles behind the Country Classic Collection, delivering strong value and honesty in both our designs and relations. Today, the Country Classic Collection continues to grow with a beautiful selection of Mission, Shaker, Contemporary, and Modern styles, Amish handcrafted in the heart of Pennsylvania Dutch country.

WE STAND BEHIND WHAT WE BUILD

Our Promise To You

- » We promise the handcrafted furniture you purchase is free from defects in material and workmanship for the life of the product.
- » We promise that, if the furniture should fail as a result of defective workmanship, we will repair it, or replace it, with the same or similar piece of furniture.

What We Hope You Never Have To Do

- » But in the event you need to make a claim, we're always here to help. Simply contact the store that you bought your furniture from and we will make things right. If it is deemed necessary to return the product to our workshop, all packing and shipping costs will be charged to the purchaser. Thank you for choosing the Country Classic Collection and putting your trust in our dedicated Craftsman!

CUSTOM, LEAN AND AGILE

What we do and why we do it

Yes, we build furniture, but the reason we are here is to serve you. We are primarily in the business of satisfying customers. We do that by embracing lean techniques – doing more with less. We are constantly working on eliminating waste and making the best use of the precious resources God has provided us. By doing this with both our time and materials, we can achieve our goal of exceeding your expectations by continuously delivering more for less!

Go ahead - Customize it!

Because of these innovations in lean manufacturing, each piece is built to order for you with your choice of color, hardware and wood species, as well as any size changes you may need. We can change sizes on any piece to make it longer, higher or wider. You can even add drawers and doors to get exactly what you want. We work hard to better satisfy, so go ahead and customize it to fit your needs!

SHOWN ON QUARTER-SAWN WOOD

CHOOSE FROM THE FOLLOWING BONDED LEATHER OPTIONS:

These beautiful bonded leather options are available on most dining, office chairs, bars tools, Craftsman and Monarch beds as well as other select items. Along with great looks it is extremely durable, UV resistant and easy to clean. Choose from the color tones below.

MADE IN THE USA

Hardwood Choices

» **HARDWOOD SELECTIONS INCLUDE:** Red Oak, Quarter-Sawn White Oak, Maple, Wormy Maple, Cherry, Character Cherry, Hickory or Rustic Hickory.

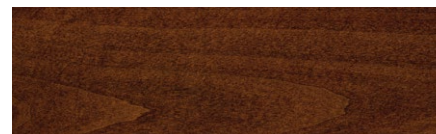

Red Oak

A beautiful hardwood chosen 50% of the time by Americans for their home furnishings. With three dimensional warmth, relatively uniform color and great durability this species is a popular choice for a reason. It has long been an American staple being the most widely used and purposeful wood even back in the colonial days.

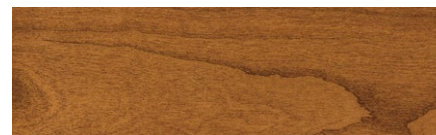

Maple (Unselected)

Grown and sustainably harvested from the Great Lakes to the Appalachian mountains. Maple is harder than Red Oak and has a durable, tight grain structure. Its tones are more yellow and creamy than cherry. The luster and changing beauty it creates as light infuses it from different angles plus the natural coloration makes Maple one of the most attractive American hardwoods. We use mostly "heart wood" thus the color tones vary from light to beige to dark brown.

Cherry

The finest growth occurs right here in our home state of PA and in West Virginia. The lighter reddish-brown tones create a warm, luxurious look that has made it a favorite for state rooms and mansions which is why this species has become synonymous with wealth and quality. It includes small pitch pockets of mineral and is susceptible to UV and will always darken with light exposure.

Hickory

If you are looking for hardness, and durability; Hickory is the most viable wood in North America. The grain is normally straight, but can sometimes be irregular or wavy. Hickory has a coarse texture, with a large color variation from reddish to lighter brown and white and may have a striped appearance.

Quarter Sawn White Oak

This wonderful wood has characteristics very similar to Red Oak, though rarer. When ¼ sawn it provides "ray flake". Ray flake is the distinctive striping which comes from cutting the log cross grain. Commonly referred to as Tiger striping. This method and look is prevalent on many antique furniture pieces. Gustave Stickley and the Shakers popularized this high end look with their signature styles which is why Mission and Shaker style pieces are still often displayed in this premium wood.

Wormy Maple

Graded out from standard Maple because of the dark "sap streaks" that naturally occur. It is also graded separately for the many "worm" holes thus giving it its name. This is an attractive choice for those who love the natural beauty and variation of wood patterns. The dark and light combined with sap streaks and "worm" holes give it a charming and naturally rustic appeal.

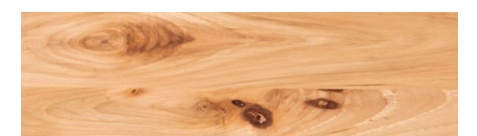

Character Cherry

The same wood as Cherry but with the natural beauty of the "heart wood" (from the center of the tree). This arresting choice contains more of the "sap wood" and "pitting" than standard cherry as well as knots and natural cracks and splits. The character forms a unique and rustic appearance with an unexpected flare.

Rustic Hickory

All the strength and durability you would expect from grade Hickory but with the added beauty of knots and pits. Open knots & pits get filled with black epoxy giving you an even surface while highlighting the character of this arresting hardwood. Tell a story – make a statement. Revel in nature's handiwork.

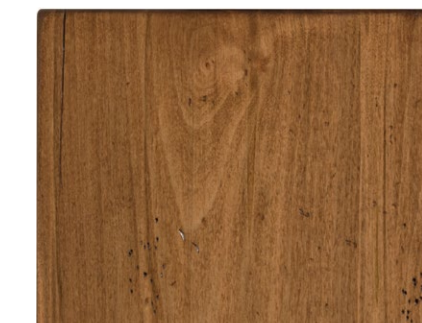

SPECIALTY FINISHES ARE A BEAUTIFUL ADDITION TO ANY FURNITURE CHOICE.

Specialty Finishes » Available ANY Color or Species

LD: Light Distressing

Worm holes, light splits and light dents all highlighted with a brushed glaze to give it an aged appearance.

AT: Antiquing

Worm holes, heavy splits, dents, gouges and worn and filed edges are all highlighted with a brushed glaze to give it an antiquated appearance.

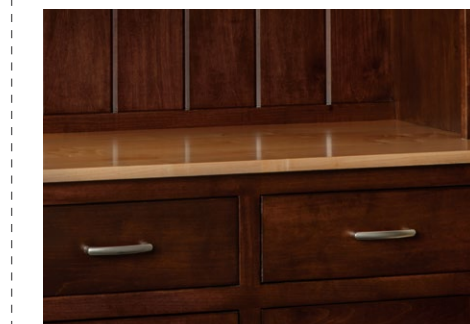

R: Rub Through

Rub through edges are highlighted with a brushed glaze to give it a worn appearance.

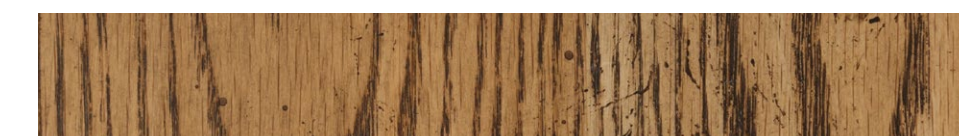

2T: Standard Two Tone

With your choice of any 2 stain or paint color combinations.

RR: Rive Rock

Rich brown tones that are reminiscent of smooth water worn stones on the river bed. This designer finish includes spatter and cow tailing. It is finished off with a dry brush glaze, hand applied to give it an authentic, worn appearance.

DESIGNED TO REFLECT OUR ROOTS

FEATURING GENUINE OLDE WORLD CRAFTSMANSHIP. BUILT TO LAST GENERATIONS.

- » Mortise and tenon construction, built to last for generations
- » Genuine heat forged, hand-hammered steel bands
- » *Optional hand distressed tops and frames
- » Multi-species design – hardwood maple tops and ash frames
- » Only available with hardwood maple tops

Commemorating our 25th Anniversary of American Craftsmanship, this collection is designed with the heavy Timber Frame construction of the Olde Farmstead where the Country Classic Collection began a quarter century ago. It is crafted with the same meticulous integrity with which our forefathers built our farmstead that has lasted for generations.
