

The Secret Scrap Challenge

August 2025

Temperature Turn

The Challenge

Add a scrap that contrasts in temperature with your project's color palette (warm in cool or cool in warm).

Placement Ideas

- Use contrasting temperatures to create focal points
- Place cool colors in areas you want to recede visually
- Use warm colors to bring elements forward
- Create depth by layering temperature contrasts

Creative Approaches

- Create sunrise/sunset effects with gradual temperature transitions
- Use temperature contrast to highlight important elements
- Create seasonal effects through temperature choices
- Experiment with how lighting affects your temperature contrasts

Share Your Work

- Use hashtag **#SecretScrapChallenge2025**
- Email photos directly to **Amy@AmyDement.com** with subject line "**AUGUST Challenge**"
- Submit by the **25th** of each month for a chance to be featured

Tips for Success

- The greater the temperature contrast, the more impact a small piece will have
- Remember warm colors advance and cool colors recede - use this for depth
- Look for fabrics that bridge temperatures (blue-greens, yellow-greens)
- Even subtle temperature shifts can create interesting visual effects
