

# Your partner for the digital journey

## GEMINISE AG IS A NEWLY FORMED SWISS COMPANY

You need an experienced solution architect managing your software project together with your people?

Need new electronics for a measurement system where you don't have the skills?

Like to get some more engineers to cover peak load and get the product done as fast as possible?

Whether you are already on the digital journey and looking for further support or need help in starting out - we're the partner for you

*“Our mission is to partner with companies to support and accelerate their digitalisation efforts”*

Let us help you find the light at the end of the digital tunnel

- Business consulting
- Consult on digitalisation
- Lead digital projects
- Subcontractor on projects
- Digital skills provider

We can partner anywhere from being a digital skills provider to consulting on digitalisation needs and business process improvements. Geminise is partnered with the Polish company [AMC Tech](#) and can offer a mix of Swiss based and Polish based engineering skills and talent as required to fit the challenges and cost needs that you have in your project.
