Keeping You Safe

8-in-1 AI Biometrics Video Smart Access

Secure Access Control that Feels Invisible

Featuring 3D Facial Recognition, Fingerprint Verification, Palm Scan, Built-in Video Doorbell, WiFi Remote Control, and Passcode Access. Ora FacePass brings unlimited imagination to residential and commercial real estate development and management. Uncompromised Security with the Ultimate Convenience. Most importantly, for privacy reasons, your biometrics data is only securely stored on the device, not anywhere on the cloud.

Overview

Say Hello to the future of residential and commercial access control; Meet the All New Ora FacePass — the next generation of AI-powered Smart Access Solution that brings advanced biometrics access control technology right to your door. Gone are the days of fumbling for keys, forgotten passcodes, or worn-out fingerprint scanners.

With Ora FacePass, you unlock your world with a glance — securely, accurately, and effortlessly.

What Makes Ora FacePass a Game Changer?

- ✓ True 3D Facial Recognition with live body detection
- ✓ Contactless, frictionless access — perfect for when your hands are full
- ✓ Multi-factor authentication (Face + Fingerprint / Face + Code) for added protection
- ✓ Dark-skin & low-light optimized — powered by internationally trained AI algorithms
- ✓ Data stays private — facial data is encrypted on the device and never stored on the cloud
- ✓ Remote access control via web admin portal & mobile app through WiFi
- ✓ Compatible with all major lock types (deadbolt, mortise, multi-point, etc)

From homes and apartment complexes to student dorms and commercial buildings, Ora FacePass is the ultimate upgrade for anyone who wants smarter, safer, and simpler access.

You Are the Key.

3 Advanced Biometric Ways to Unlock. Instantly. Securely.

Experience next-level convenience with ultra-fast, accurate biometric access. Built for your security. Designed for your life.

Facial Recognition

Advanced 3D facial recognition identifies you in seconds, even in low light, for a seamless hands-free entry.

Fast • Accurate • Hands-Free

Fingerprint

Semiconductor fingerprint sensor delivers rapid recognition with high precision and anti-spoofing technology.

Fast • Precise • Anti-Spoofing

Palm Vein

Reads unique vein patterns beneath the skin for highly secure, contactless access that's quick and effortless.

Contactless • Accurate • Secure

Your Data. Your Privacy. Always Protected.

All biometric data is stored on the device only. None of your biometric data is uploaded to the internet or cloud.

Stored Locally
On-Device Only

No Cloud Upload

You're in Control
Total Peace of Mind

See. Hear. Talk. Unlock.

Smarter Security, Right from Anywhere.

The built-in video doorbell lets you see who's at your door, talk in real time, and grant access remotely—anytime, from anywhere.

Ultrawide 160° Field of View

See more of what matters with a wider view.

Color Night Vision

See every detail clearly, even in the dark.

Real-time 2-Way Intercom

Talk to visitors, delivery drivers, or anyone at your door.

Remote Access Control

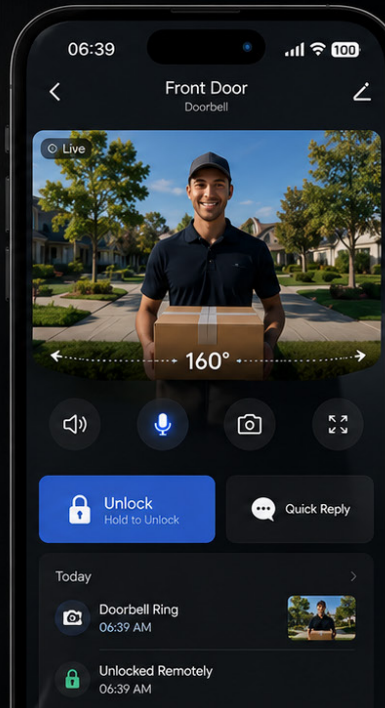

Unlock the door for trusted people, no matter where you are.

FP02MY26

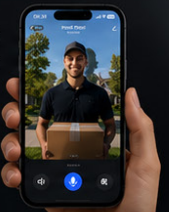

Smart Lock with Video Doorbell

Always Know. Always in Control.

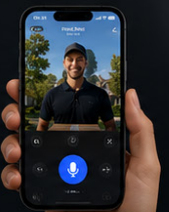

Check Who's There

See visitors or deliveries in real time with a clear, ultrawide view.

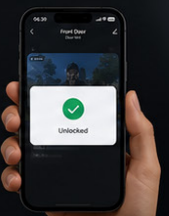

Talk in Real Time

Use the 2-way intercom to talk to anyone at your door.

Grant Access Remotely

Unlock the door for trusted visitors or delivery drivers from anywhere.

Enhanced Security

Live monitoring and smart alerts.

Convenience

Manage access for family, guests, or deliveries.

Real-time Alerts

Get notified the moment someone rings the doorbell.

Control from Anywhere

Your home. In your hand. Always connected.
