

We set you up for success.

All guest reviews in one spot

revboost.
THE HOSPITALITY GROWTH OPERATOR

 Publish or not publish? You now have a choice!

RevBoost software can significantly impact a hospitality business in several ways!

Reputation Management: RevBoost helps businesses manage their online reputation more effectively by

- **Collecting reviews** across 45+ platforms, including major sites like Google, Facebook, and hospitality specific ones, such as TripAdvisor and AirBNB.
- Providing a centralized **dashboard** for monitoring and responding to reviews from various platforms.
- **Automating** review requests via SMS, email, or WhatsApp, **increasing the likelihood** of receiving feedback.

Customer Engagement and Satisfaction: The software enhances customer engagement by

- Facilitating timely responses to guest feedback, which can improve customer satisfaction.
- **Offering video testimonial** collection, adding a personal touch to reviews and potentially increasing trust among potential guests.

Operational Insights: RevBoost provides valuable data for business improvement

- **Offering insights** from customer feedback, allowing hotels to identify areas for service enhancement.
- Enabling **continuous improvement** based on guest experiences and suggestions.

Time and Resource Efficiency: The software streamlines review management processes

- Centralizing review monitoring and response in one dashboard, **saving time** for staff.
- Automating review requests, **reducing the manual effort** required to solicit feedback.

Marketing and Visibility: RevBoost can positively impact a hotel's marketing efforts

- By facilitating more reviews, it can **improve the hotel's visibility** on search engines and review platforms.
- **Video testimonials** can serve as powerful marketing tools, showcasing authentic guest experiences.

Business Growth: Ultimately, effective use of RevBoost can lead to

- Improved online ratings and reputation, potentially **attracting more bookings**.

- Better **understanding of customer needs**, leading to service improvements and increased guest satisfaction.
- **Enhanced digital presence**, which is crucial in today's online-driven hospitality market.

By leveraging these features, hotels can create a positive feedback loop: better reviews lead to more bookings, which in turn can generate more positive reviews, contributing to overall business growth and success.
