

Beartooth La Femme

PACKING LIST & DETAILS

We have a required packing list for on the bike. Items with an * asterisk are not required but recommended. Please be sure to pack the required items.

The Beartooth Pass can create its own weather regardless of the forecast. It typically has wind at the top, cooler than Red Lodge, and clouds can move in quick with rain, sleet and other types of moisture. We are experienced in supporting cyclists on the pass and will be sure to keep things as safe as possible. We want you to enjoy this experience and come prepared.

We will have electrolytes to fill water bottles and provide nutrition at rest stops on the pass. Keep water bottles full and a snack in your pocket.

We will provide a Reverse Gear Drop, especially if there will be weather. Many times, people climb just fine with a long sleeve and light jacket but need more layers for descending. Our Sunday night meeting will remind you with what we will require you to leave with on the bike
