I am a 61-year-old female, business owner. I just had the opportunity to read, "Medicare Decoded." I had no idea, how understanding Medicare could affect the financial aspects of my business, and return on invested benefit dollars. The knowledge I acquired from this book, will save me thousands of dollars. Thank you Mr. Solofsky, for finally clarifying how Medicare works, and how finally understanding Medicare can help millions of people.

As a "Millennial" this book was very educational. I'm 31 and just trying to have a better understanding on how health insurance and Medicare works. After reading this book I have a better understanding and will be sharing it with my friends and family. It's important for us all to understand the ins and outs, not just for ourselves but for the older generations in our family's! Definitely worth the buy!
