“AGAINST ALL ODDS!”

A Global Documentary

“Dreams are only Dreams unless we Take the Actions to Ignite them!”

Growing up, I was exposed to some of the harshest realities of life; Drug addicted parents, homelessness, 17 foster homes, gangs and chaos. But, at a young age I knew I wanted more than the life I experienced and developed the drive to “Change my Stars!” I dedicated myself to a life of learning, sports, education, family and service. Over the years I have achieved countless accomplishments I was told I would never reach. One of those life changing accomplishments took place in 2002 at the winter Olympics where I represented Team USA and helped win the first Olympic Medal in over 46 years. I continue to strive to be the best possible version of myself as I share my skills and experience with the world.

"What Actions are you willing to take today to change your tomorrow!"

As a champion in life, I have found that most answers to complex issues are very simple, yet, as humans we make things more complex than they need to be. My success and that which I teach and speak of comes from a foundation of accountability in life, the willingness to be vulnerable and learn, and comes from a place of service to others. Whatever it is we want to achieve in life is right at our fingertips. There is no magic to achieve this, simply the ability to be clear on our desires and put them into Action. The first quote I ever was passionate about was that of Napoleon Hill, "Whatever the mind can conceive and believe, it can achieve!" This plays true to any circumstance with any individual and organization. So, let's work together to create your next amazing event and inspire your team to level up in life and in business!
