

Multi-Purpose Feeder Series

One feeder executing two applications helping maximize ROI

The Multi-Purpose Feeder Series is two feeders in one. With one fast switch of the mode button you have the choice of either a fully functional Ink Jet Feeder or a Replacement Pocket Feeder for swing arm inserters, easily switching from continuous mode (IJ) to inserter mode (EI). Our SE models come standard with our Patented Dynamic Rotation Technology, while our ECO models feature our Patented "Football" Separator. Each feeder includes the heavy duty 1/4" thick powder coated side frames, small product guides and variable speed control.

SE 900 MP

Multi-Purpose Feeder Advantages

- > One feeder for two different applications
- > Minimal setup time
- > Consistent feeding
- > Integrates easily to existing work cells
- > Quick Return on Investment

Multi-Purpose Feeder Series

IJ Mode allows for use as an inserter. Locate the red mode button on the feeder's back.

Once in IJ mode, the Multi-Purpose Feeder provides continuous insertion capability.

EI Mode allows for use as a feeder. Locate the red mode button and switch downward.

Once in EI mode, the Multi-Purpose Feeder provides inserter feeder capability.
