

Getting Ready for Weaning

Balclutha Golf Club:

Monday 4th December, 4pm (tea & coffee from 3:30pm)

Lawrence Golf Club:

Tuesday 5th December, 4pm (tea & coffee from 3:30pm)

Clutha Vets invites you to a pre-weaning get-together to discuss a range of topics all related to maximising lamb survival and growth as well setting things up for a good autumn.

We are excited to have Colin McKay, technical services manager with Elanco NZ, as our main presenter. Colin will take us through various aspects of flystrike control, something that is becoming an increasing challenge for South Otago farmers. Topics he will cover include:

- Why does flystrike seem to be getting worse?
- The need to treat preventatively
- Which chemicals are likely to work?

Being one of New Zealand's most respected advisors on all things that like to attack the skin, fleece and coat of our livestock, Colin will also be happy to answer any questions you have around lice and their control

Other topics, covered by members of the Clutha Vets crew, include:

- Pneumonia in lambs; reducing the risk of this frustrating problem.
- Using specialist lamb finishing forages? Animal health concerns to be aware of.
- Weaning time checklist; worm control, trace elements, uddering ewes, and more.

BBQ and refreshments after the meeting!!

For catering purposes, please register your attendance by contacting your Clutha Vets clinic:
