

THE RAM RUN

EVERY RAM, EVERY YEAR - BOOK YOUR RAM WARRANT OF FITNESS

Regular Examination of rams is important to ensure they are going to be fit for tugging.

We can detect many of the causes of infertility, including;

- Brucellosis
- Scrotal mange
- Epididymitis (lumps)
- Poor testicular tone
- Damaged testicles

We also offer:

- Footrot vaccination
- **Do you know your ewe selenium status?**
 - **We are offering free blood collection for testing of ewes for pre mating trace elements (Selenium +/-Iodine)**
- Long acting fly treatment of rams is also available
