

HOLLIDAY INK

TATTOO AFTERCARE

KEEP IT CLEAN. LET IT HEAL. WEAR IT PROUD.

Simple care helps protect your fresh tattoo while the skin heals.

WE RECOMMEND TATTOO GOO

Use a thin layer and follow the product label directions.

We carry Tattoo Goo at Holliday Ink - just ask if you want some.

1. FOLLOW THE BANDAGE INSTRUCTIONS

Leave the dressing on for the time your artist recommends. Different dressings have different directions.

2. WASH GENTLY

Wash your hands first. Clean the tattoo gently with mild, fragrance-free soap and clean water. Do not scrub.

3. PAT DRY

Use a clean disposable paper towel and gently pat the tattoo dry. Do not rub fresh skin.

4. MOISTURIZE LIGHTLY

Apply only a thin layer of Tattoo Goo or the aftercare product your artist recommends. More is not better.

5. NO SOAKING

Avoid baths, pools, hot tubs, lakes, and rivers until the tattoo has healed. Showering is fine.

6. PROTECT IT

Do not pick or scratch. Wear clean, loose clothing and keep the healing tattoo out of direct sunlight.

WHEN TO GET MEDICAL HELP

Seek medical care for rapidly spreading redness, worsening pain or swelling, pus, red streaks, fever, hives, trouble breathing, or another concerning reaction.
