

GREAT BASIN
BEEKEEPERS OF
NEVADA

AGENDA

July 27, 2020

Zoom hosted meeting 6:30 p.m.

🐝 Crystal

- Welcome to our second Zoom hosted meeting. Thank you to Jerry and Laura Antinoro of *Hilltop Farm* for hosting our meeting again this month.

🐝 Linda

- Serenity Garden dedication ceremony – Foothill Garden, Carson City July 8th recap

🐝 Myrna - Treasurer's Report for GBBN

🐝 Lisa - Overview of beekeeping equipment

🐝 Crystal

- Make sure water is in close proximity to your hives it's getting hot out there
- Now in a dearth – feed your bees if needed 1:1 sugar syrup
- Start buying sugar to prep for winter feeding, COVID-19 is making it difficult to buy on demand so stock-up if you have a dry place to store it
- Watch for robbing, get robbing screens ready and put on your hives a.s.a.p. if you see activity
- If you have not already inspected your hives do so, look for pests & diseases and treat if needed
- Do forget to check the website for beekeeping news. Please submit articles and beekeeping photos so I can post them to the website. <https://greatbasinbeekeepersofnevada.org>
- Wasp traps should be up and baited if you have wasps in your apiary
- Search the web for online Beekeeping information: there are a number of conferences, classes, and seminars available
 - Bee Culture Magazine has a weekly newsletter that they send out by email
 - Honey Bee Veterinary Virtual Conference starting Sept. 21th. \$100.00 registration fee HBVC.org for more information.
 - WAS Conference in Montana has been re-scheduled to 2021

🐝 Beekeepers Waggle

- What is blooming in your area?
- How are your hives?

🐝 Again a special thank you to Jerry and Laura for hosting the meeting.
