Directors and Legion Leaders

Thank you for extending me the courtesy of presenting information to the Board a couple of weeks ago. Whether I like it or not, running the All Star program puts me in contact with way too much information that relates to matters other than All Stars. People have asked me to bring information to you and to express their opinions and observations. Gathering information and the opinions and observations of others also has the effect of causing me to develop views and opinions.

There is a saying – Things are the way they are because if you wanted it different, you would have done it differently.

Another – The past is in your head. The future is in your hands.

It is my view – Legion Baseball in Minnesota is facing some serious challenges. Legion Baseball in Minnesota also has some great opportunities. You do not have to reinvent the wheel. But you must realize that the tire is flat on one side. You can keep driving, yes.

Some of you will read through all this. A few will never open it. But it has been delivered to you which is what I promised coaches and other I would do even if what is contained offends you or if you believe it to be irrelevant. If you do not know that there is a cancer and it has rapidly grown with the risk if not the promise that it will attach itself to even more territory, if you do not know then there is nothing to say.

Thank you for caring about Legion Baseball. It is a program worth fighting for. It is a program worth arguing about.

Respectfully Submitted

Bruce Barron
