Bruce! Just speaking for myself, I accept your apology, and I hope we can work together to improve Legion baseball here and into the future. You know I valued your ideas and opinions, and the Legion Prospect Series has been a resounding success due to the hard work you and Mike and others have put into it. Thanks for the note! Randy

Subject: Apologies

Randy

I want to issue a true apology to you and the others that were offended by some previous remarks and tone. I certainly know from business to step back and take a few breaths when one is angry, especially when using email or text messages. I do understand I came off as caustic and probably condescending to you and others when I sent commentaries that clearly had some anger underneath.

Everyone has passion for the program. And all of us, everyone deserves to be treated with respect.

Bruce Barron
