Pro match times subject to change based on length of matches

MOTOROLA

Dear Players and Fans:

We are pleased and excited to welcome you to Schaumburg for the "Grand Slam" 2005 Motorola IRT Pro National and USA Racquetball Adult Regional Racquetball Championships. The five-day event hosted by Schaumburg Tennis Plus promises to be action-packed and fun-filled with the top professional players in the world competing for more than \$35,000 in prize money, and the "Rock and Roll It Out with the Pros" party on Saturday night.

While competition on the court will be intense, we already know one winner -- the local chapter of the Juvenile Diabetes Research Foundation that is the beneficiary of proceeds from the Charity Pro-Am Doubles and Dinner with the Pros.

This tournament would not be possible without the hard work of many dedicated volunteers. We would like to extend a special thanks to them, as well as William Rainey Harper College for hosting the amateur matches, and the Woodfield Hyatt Regency for providing shuttle service between the hotel and Schaumburg Tennis Plus.

We hope you enjoy the many activities of the Motorola IRT Pro Nationals.

Sincerely,

A handwritten signature in black ink, appearing to read "Dan Aderhold".

Dan Aderhold
Vice President and Director of Business Operations
Motorola, Inc.

DARTMOOR HOMES

Dyfl

Everyone's Dream Is Different.
So Is Every Dartmoor Home.

We believe that the better home is one that fits your needs and desires. That's why no two Dartmoor homes are ever exactly alike. Our homes are custom-tailored to your individual style and taste. You want to add a room? Fine. Raise the ceilings? No problem. Move windows? We've done it before. At Dartmoor, we know we'll create the home of your dreams, because you've helped us design it.

"Our philosophy
is simple.
We're here to
build your home.
Not ours."

Welcome to the IRT Motorola Pro Nationals,

Since becoming the commissioner of the IRT in 2002, I had a vision of adding another true Grand Slam event to our schedule with in five years. With the help of Dan Aderhold of Motorola we have realized that vision. The addition of Motorola as our title sponsor lends unprecedented credibility to the sport that we all love. A recent announcement that Comcast Cable will now carry THE TENNIS CHANNEL on its cable line up and the addition of this event will bring racquetball to the television on a near weekly basis. Exciting times!

An event like this also needs support from the local community and could not be done without the financial efforts and love for the sport by the following people.

Susan and Leo Klimaitis, there are not words that can thank you enough for your overwhelming support of the IRT, USAR, Chicagoland racquetball and most importantly, my family. Pat and Mary Taylor of Dartmoor Homes, without you I would not have been able to be at the level of the game that I now enjoy so immensely. Howard Miller has been involved for over twenty years and is the third part of the big three here in Chicago racquetball. Thank you Howard for support and being part of making the vision happen.

Keith Minor of KWM Gutterman has stepped up to help make this event happen, thanks you. I would also like to thank the two host facilities Schaumburg Tennis Plus and William Rainey Harper College for use of their outstanding facilities.

With great pride we have named the Juvenile Diabetes Research Foundation –JDRF as our benefiting charity for this year's event. Caring for children with diabetes and researching a cure and treatment for diabetes is what they do. Please support our fundraising efforts throughout the event and help make a difference in the lives of our children.

Last but not least most of the credit of this event should go to Doug Ganim and Jim Hiser who have help mold and guide this event and racquetball in the right direction. Without their dedication and positive efforts in sports towards the big picture, this type of event would not be happening.

An event like this would not be possible without the tireless and dedicated support of all the volunteers and staff members. Please take the time this week to thank them for making this event happen for all of you. Enjoy all the amateur and professionals matches this weekend. Feel free to contact me or any of the staff this weekend if we can be of assistance in any way. Have a great time here this week in Schaumburg and at the 2005 Motorola Pro Nationals.

Dave Negrete

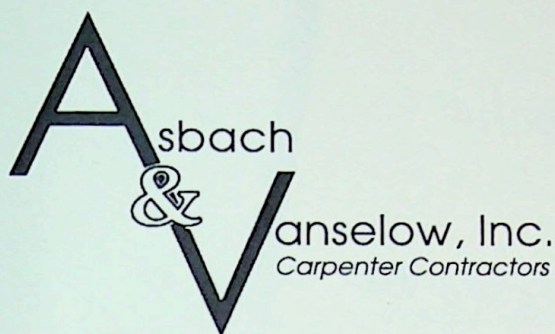

Event Director
IRT Commissioner

*Welcome to the
Motorola IRT Pro Nationals.*

We are very pleased to support this event for the JDRF. We hope you all enjoy this prestigious event and have a safe and entertaining weekend. Play Hard!!

And I thought I could go out quietly!

Just play a last point, shake hands, and walk towards the door. Open it up gracefully, let my opponent walk through, and then close it behind me to the next chapter of my life. Well that will happen this week in Chicago because the time has come for me to start a new direction. Don't get me wrong, I will show up every once in a long while just to make sure the young blood (and old) are still keeping the faith. It has been a hell of a ride. I have played Juniors, Collegiate, Amateur, and Professional for over 20 years. I even got an education (school & life) along the way. I will never forget the people that have made me who I am and the sport that defines me. I am a racquetball player through and through. I love the backhand splat, foot faults, and raising my fist in triumph. It's going to be hard not to play. It's even going to be harder not seeing so many good people I have met along the way. I can honestly say that the Big D Roadshow is a success! For Wilson Racquetball, of course! But for me it has been so much more. A one on one meet and greet that has taken me all over the world. And what a world it is. And what people!!! Thank you John Ellis & Cliff Swain for the great times! Thank you Terri Graham, Chris Evon, Wilson Racquetball for believing. Thank you Southwest Missouri State University for giving me the chance. Thank you Tina for standing beside me and holding my hand. Ethan and Emily, thank you for your unconditional love. And mom and dad, you have been with me since the beginning and to the end, THANK YOU.

Derek "Big D" Robinson

Good luck to all the racquetballers
this weekend.

This Grand Slam event looks to be
a fun and entertaining one. It is
great to be part of history in the
making.

Enjoy the professional matches this
weekend and have a ball!

Howard Miller

Welcome to the...

MOTOROLA

IRT Pro Nationals 2005

Rock and Roll It Out at the "Rockin' Grand Slam Event" – The Motorola IRT Pro National Racquetball Championships. The event showcases the top professional players in the world competing for over \$35,000+ in prize money. It also features the thrill of dramatic player introductions featuring hard rocking music with laser light shows and presents an opportunity to visit the leaders in the racquetball industry and check out the latest products in the Motorola Players Village. One of the best features of the Motorola IRT Pro Nationals is the made-for-TV portable stadium racquetball court that not only enhances media coverage of the event, but also gives spectators a rare, unobstructed view of the action. The event will be nationally televised (Tape delayed) on THE TENNIS CHANNEL and other various media outlets. In addition, the Motorola IRT Pro Nationals also serve as a USA Racquetball Adult Regional Qualifier setting the stage for fierce competition in age and skill divisions for both singles and doubles of every level. Special events include the Saturday evening "Rock and Roll It Out with the Pros" party, Motorola Players Village complete with concessions, International/VIP Reception, Pro-Am Doubles Tourney for the Juvenile Diabetes Research Foundation (JDRF), IRT Pro Players Champions Clinic, Rocky Carson – Pro Penn/Racquetball Warehouse Skills Challenge, along with many other great activities.

The Professional matches will be held at Schaumburg Tennis Plus, owned and operated by the Schaumburg Park District, a national gold medal winning parks and recreation district.

The facility is top-notch featuring tennis, racquetball, squash, state of the art fitness center, basketball, swimming pool, bar and lounge, and much more. Amateur matches will also be held at the Rainey Harper Junior College, just minutes from Schaumburg Tennis Plus.

Also included will be the top touring women's professionals showing off their skills, along with the best players on the World Outdoor Racquetball (WOR) tour. The WOR players will be showcasing their skills outdoors, on the three-walled courts.

KWM Gutterman Inc. is a family owned and operated manufacturer with over thirty five years experience in the manufacturing, service and adjusting of all makes of gutter machines.

We are the sole manufacture of the Panther gutter machines and Ironman gutter machines. All of are gutter machines are made to order and produced in our state of the art facility located forty-five miles south west of Chicago Illinois.

Both standard profiles five inch O.G. (K Style) and six inch O.G. (K Style) are available in either product line Panther or Ironman. The combo gutter machine producing both five and six inch gutter is available in the Ironman model only. Included in the Ironman gutter machine line is the two and a half inch bottom Fascia profile.

KWM Gutterman offers the most comprehensive gutter machine warranty in the industry. 2-year warranty on the complete gutter machine and all of its components including electrical.

KWM Gutterman offers a 2 years parts and labor warranty on all machines manufactured

Distributor of:

- Residential Gutter Machines
- Commercial Gutter Machines

Service & Parts:

- We supply parts for most brands of gutter machines

Good luck to all the participants and thank you for your support of the JDRF

*D*iabetes is a chronic debilitating disease affecting every organ system. It's been said that it's not just a child who gets diabetes—it's the whole family. Juvenile diabetes can change family life forever. This is what happened when four-year-old Alex and his brother Eric when they were diagnosed with diabetes. "By far, the worst part about having a sibling with diabetes is that you have to watch someone else suffer from the disease." "It's one thing to have to put up with the disease myself, but to watch my brother Eric go through it is terrifying". Alex and his brother have adjusted to life with juvenile diabetes and it wasn't easy. Their battle against the disease became two vs. one. They are delegates to the 2003 JDRF Children's Congress and they courageously share their story with others.

dedicated to finding a cure

Every hour of every day, someone is diagnosed with juvenile (type 1) diabetes and this accounts for almost \$100 billion in healthcare costs in the U.S. alone. Controlling the disease requires 24/7 vigilance and imposes a grueling regime. Unfortunately, insulin is not a cure for the disease—it is merely life support. As a result, children and families live by the clock, day and night, for the rest of their lives.

This is a difficult challenge for most people and that is why the Juvenile Diabetes Research Foundation is committed to finding a cure for diabetes and its complications through the support of research as soon as possible. Since JDRF's founding in 1970 by parents of children with type 1 (juvenile) diabetes, JDRF has awarded more than \$800 million to diabetes research, including more than \$85 million in FY2004. More than 80 percent of JDRF's expenditures directly support research and research-related education. In 2004, the Foundation funded 500 centers, grants and fellowships in 19 countries.

*Juvenile Diabetes Research
Foundation International*

JDRF's Research Goals

JDRF plays a unique role in setting the global direction of diabetes research resources, to ensure that they are used as effectively as possible as a "cure enterprise" to bring about a world without diabetes and its complications. To that end, the organization has developed six cure therapeutic targets on which JDRF will focus over the next five years:

1. Perfecting islet transplantation without chronic immunosuppression
2. Creating safe and widely available "universal donor" supplies of insulin-secreting cells for transplantation
3. Regenerating the body's own beta cells without islet transplantation
4. Perfecting a closed-loop artificial pancreas
5. Creating novel therapeutics for predicting, preventing, and reversing complications, and
6. Maintaining or restoring immune tolerance in new-onset patients and those at-risk for developing diabetes

You can't outgrow juvenile diabetes and the only solution is a cure. Please join us in supporting JDRF, the children and families affected by this disease and their mission to help find a cure.

Together we can be agents of change and help to find a cure!

DOB 1/1/80
RIGHTHANDED

"VANDY" LAST YEAR'S "ROOKIE OF THE YEAR" HAS BROUGHT HIS RANKING UP FROM #92 LAST SEASON TO #7. A DEVASTATING BACKHAND MAKES HIM TROUBLE FOR ANY PLAYER ON THE IRT. KEEP YOUR EYES ON THIS YOUNG ROOKIE. A FINALIST IN SAN DIEGO THIS SEASON.

NEW DUAL-CYLINDER TECHNOLOGY

OLD
STANDARD TUBE

**TOTALLY NEW.
COMPLETELY DIFFERENT.
INCREDIBLY POWERFUL.**

**FRAME MADE
FROM TWO SUPER
POWERFUL TUBES
(INSTEAD OF JUST ONE)
CONNECTED BY
STABILIZER
BRIDGE**

NEW
DUAL-CYLINDER
PATENT PENDING

The new E-Force Radium and Tyranny are made in a radical new way — from two hand-laid carbon graphite tubes (instead of one) joined at the outside by a graphite bridge, creating a deep channel on the inner frame.

INCREDIBLY STABLE FRAME

These tubes are structurally stronger. Combining the two strong tubes with the Stabilizer Bridge creates an amazingly stable frame/hitting surface.

LONGEST STRINGS

The deep inner channel plus strings through the handle allow every string to be the longest possible unrestricted in free space. **The longest strings, plus maximum frame stability, create greater stringbed deflection and incredible power.**

INCLUDES E-FORCE'S EXCLUSIVE PATENTED LONGSTRING® ADVANTAGE

Longest Mainstrings— 22" LongString

The mains extend unrestricted in free space 22" from the outer edge of the racquet tip all the through the handle.

**MORE DEFLECTION.
MORE POWER.**

PATENTED 5,919,104

Longer Cross-Strings—10.5"

Crosses extend unrestricted in free space a full 10.5" to the outside edges of the frame.

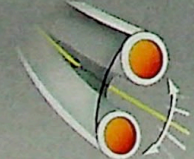

**INCREDIBLY STABLE FRAME + LONGEST STRINGS =
MORE STRINGBED DEFLECTION AND MORE POWER**

**INCREDIBLY
STABLE
FRAME**

**LONGEST
STRINGS
POSSIBLE**

**MORE STRINGBED
DEFLECTION,
MORE POWER**

MORE POWER, MORE CONTROL, BIGGER KILL ZONE, MORE TOUCH

MORE POWER from Longer Strings

The longer the strings, the greater the stringbed deflection and the greater the power. The combination of new Dual-Cylinder Technology with exclusive patented E-Force LongString Technology creates the longest strings possible by allowing every string to extend unrestricted in free space to the outside edge of the frame. The strings cannot be longer.

**ELIMINATES
UNWANTED
TWIST/DISTORTION**

Because the strings are longer — and the frame is more stable — the kill zone is much bigger.

MORE POWER from Reduced Frame Twist/Distortion

The combination of two strong tubes — spanned by the Stabilizer Bridge — creates an amazingly solid structure. This reduces distortion and twisting in unwanted ways at ball impact. More energy is transmitted to the ball — for more power.

MORE CONTROL

The Stabilizer Bridge holds the two tubes in position so that the frame does not twist or distort. Pinches. Kills. Passing shots. The ball goes where you want it to go.

MAX
MAX
STRINGS
EXTENDED
TO MAXIMUM
POSSIBLE
LENGTH

NEW KILL ZONE

MORE POWER AT TIP

For the first time in racquetball history, mains and crosses extend unrestricted in free space to the outside edges of the corners of the frame.

**MORE
POWER
AT TIP
OF FRAME**

BETTER TOUCH

By eliminating twisting and distortion, Dual Cylinder Technology prevents the transfer of erroneous vibration signals through the handle. You play with more touch, increased confidence.

**BETTER FEEL
FOR THE BALL**

E-FORCE HAS THE LONGEST STRINGS*

	Longest E-Force	Competitor	E-Force Advantage
Longest Mainstring*	22"	16"	37% Longer
8 Center Mainstrings*	172"	121"	34% Longer

Cross-Strings (Longest possible — crosses extend from outside edge to outside edge of frame.)
* strings unrestricted in free space

A performance breakthrough never before seen. Longest strings and increased frame stability result in devastating new power advantages.

The Art of Racquetball

Ruben has been playing professional racquetball for more than 25 years. He was inducted into the Racquetball Hall of Fame in 2000 – while still an active top 10 player on the Pro Tour. In addition to being a former #1 player in the world, Ruben holds more than 20 US Open, National Singles, Pan American, World Singles, World Doubles, and Pro Tour Titles. Most notably, he won back-to-back National Doubles titles with partner Mike Guidry in 2002 & 2003. He has been a member of the US National Team for more than seven years. Ruben is now also a regular player on The Legends Tour.

RUBEN GONZALEZ
HALL OF FAMER

Once again, Ruben has shown the creativity and imagination that has kept him at the top of his sport for so many years. For some time, Ruben has been interested in pursuing his talent in art, with a racquetball flavor. Most of Ruben's work has a distinctive racquetball theme, but many pieces will appeal to a broad range of modern art lovers. After an exciting debut at the US Open Championships, Ruben's artwork has taken off. With more than 25 pieces purchased in a few short months, Ruben's art is growing fast in both popularity and value.

GOOD LUCK AND PLAY HARD THIS WEEKEND!

FRANK AND DIANE BUNKER—SILVON SOFTWARE

Overview

Founded in 1987, Silvon Software, Inc. develops and provides business Enterprise Performance Management analytic applications to manufacturing, wholesale distribution and retail enterprises. Today, our Enterprise Performance Management applications are licensed by more than 1,500 customers globally. These solutions provide to our customers hard dollar, bottom-line benefits from reducing cost of goods sold to shrinking inventories, accelerating time-to-market, and improving overall supply chain productivity. Our solutions are also validated and endorsed by leading industry analysts and organizations including Microsoft, IBM and Compaq.

Behind Silvon's products are more than 100 professionals worldwide in the areas of product research and development, technical support, consulting, sales, marketing and administration. We are positioned to meet the growing demands of a global market through offices in the U.S. and the Pacific Rim, along with a wholly-owned subsidiary in the United Kingdom that serves as the sales and support organization for our distributors, affiliates and customers throughout Europe, the Middle East and Africa.

Corporate Mission

At Silvon, our mission is to deliver powerful Enterprise Performance Management solutions that are quick to implement and provide quantifiable results and a fast return-on-investment for our customers. It is our belief that we can fulfill this mission through a unique combination of industry vision, supply chain expertise and innovative technology.

**NORTHERN ILLINOIS
STEEL SUPPLY COMPANY**

NORTHERN ILLINOIS STEEL SUPPLY COMPANY, serving northern Illinois and Indiana since 1961, is located minutes from the junction of Interstates 55 and 80. Our efficient 56,000 square foot warehousing and processing center supplies satisfied customers with prime quality domestic steel and custom fabrication at competitive prices. Our commitment to excellence assures you of the finest quality and service in the steel industry. Our dedication to perfection makes us perform better than anyone else in the business.

We maintain our own fleet of trucks, driven by our own people. A 24 hours a day, 7 days a week, 365 days a year dispatching network keeps you in touch with us when the need is there anytime, any day.

At **N.I. STEEL**, we value your business and look forward to the privilege of serving you in the future.

TYLER MEDICAL SERVICES

Tyler Medical Services is one of the largest, most comprehensive and experienced occupational healthcare providers in the central Fox Valley area. Our goal is to improve the health and well being of your work force, while protecting your company from lost productivity and rising employee healthcare costs. We've been doing this for over 12 years.

From pre-placement physicals to work related injury treatment, you can be sure that your work force will receive quality care from our highly skilled physicians and staff who specialize in occupational medicine.

Knowing the specifics of our clients' work environment enables us to create detailed, site-specific solutions for comprehensive work place wellness. We take pride in our results: increased productivity, fewer workers' compensation claims, safer working environments and overall enhanced employee health.

Tyler Medical Services offers 2 convenient locations for access to exceptional occupational healthcare.

Fellow racquetball enthusiasts,

Myself and the Schaumburg Park District welcome you to racquetball's second "Grand Slam", the IRT Motorola Pro National and USAR Adult Regional Racquetball Championships in Schaumburg Illinois. I hope while you're here, not only will you enjoy some of the greatest racquetball in the world, but all that the Village of Schaumburg has to offer. I am truly excited to be part of something this monumental in the racquetball community and would like to thank all of the people that have come together to make this event possible and for your support of the JDRE.

So sit back, relax and have a "ball"!

Why QueLIFE?

QueLIFE offers solutions to help people **enjoy a healthier and more prosperous life**. We have amazing products and a dynamic business opportunity for those who may want to earn extra money helping others feel better.

QueLIFE products are unique in design, potency and performance. We have selected herbs, that have historically been used in cultures, all over the world, for centuries, with effective and documented results.

Our Secret is, we choose only herbs rich in oil. Then we use a proprietary extraction process to pull potent nutrients from the root core, while also preserving the oil content in these nutrients. The result is a more potent product.

QueLIFE markets its products through a network of Independent Distributors. Many of our distributors have personally reaped the benefits of using QueLIFE products and therefore are very passionate about sharing these products with others.

On behalf of QueLife , good luck to all the players supporting this great event. We are proud to be a part of bringing the IRT to Chicago and helping the JDRF in this history making event. Enjoy the weekend and check out our booth in the village.
