KINETIC[®]

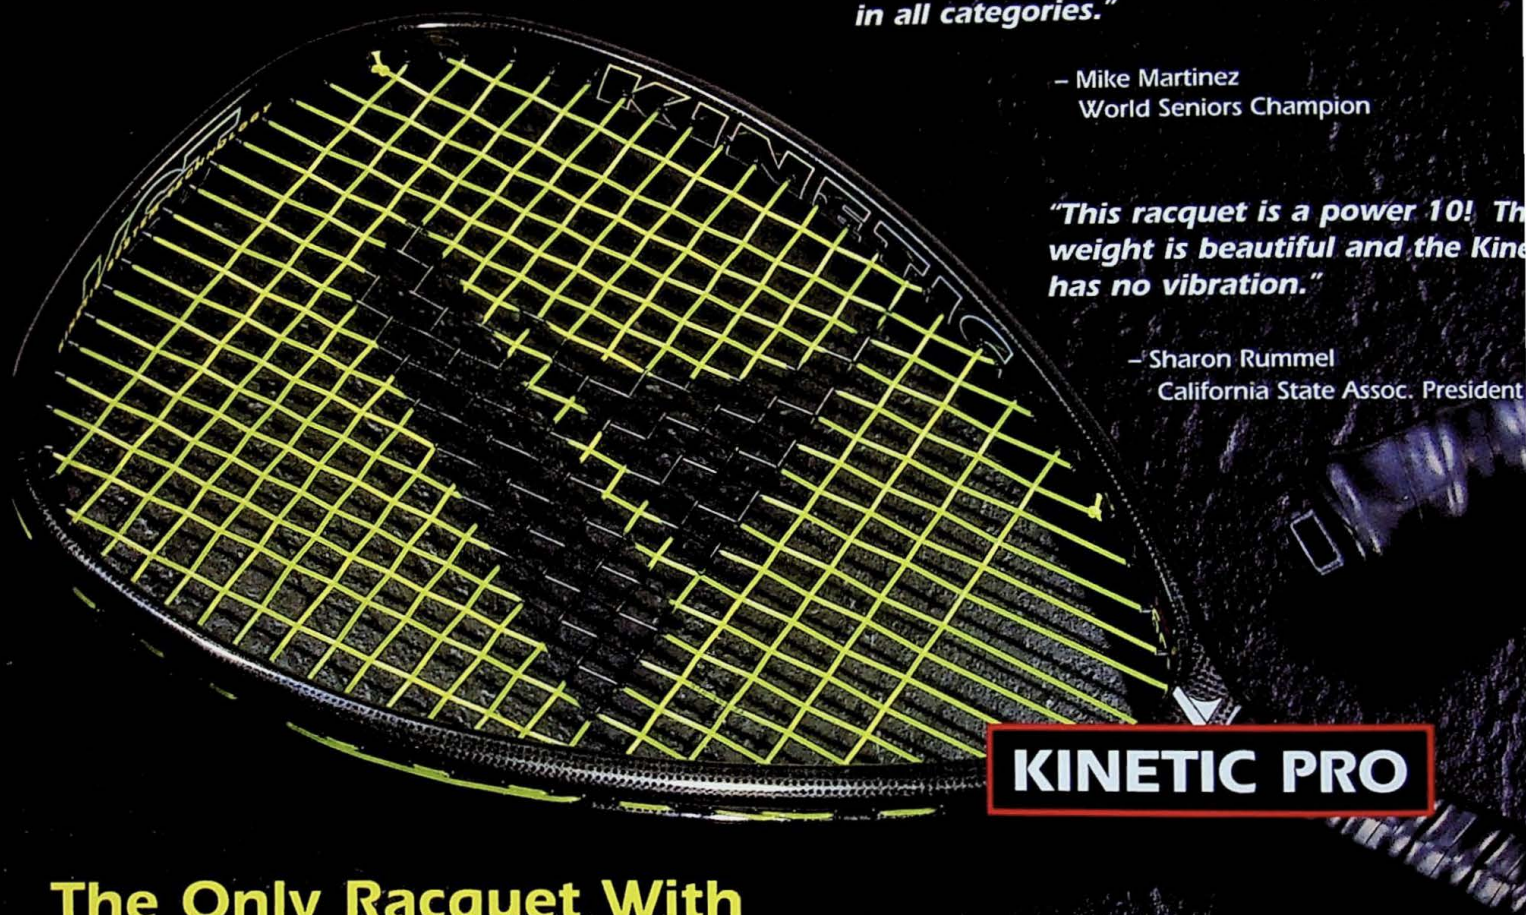

"I have tested racquets for ten years and the Kinetic blows all of them away, it's a 10 in all categories."

— Mike Martinez
World Seniors Champion

"This racquet is a power 10! The weight is beautiful and the Kinetic has no vibration."

— Sharon Rummel
California State Assoc. President

KINETIC PRO

The Only Racquet With A Second Source Of Energy.

From PROKENNEX, The Pioneer In Racquetball Technology

Kinetic Technology

It provides our new ProKennex racquets a secondary source of energy to give you unprecedented levels of power, performance, feel, and shock absorption. Studies conducted at independent laboratories worldwide confirm that compared to traditional racquets, Kinetic system technology provides a:

- 20% reduction in shock
- 43% damping of vibration
- 15% increase in "power zone" or "sweet spot".

Whether you're a top pro, a beginner, or a recreational player— the Kinetic's unique secondary energy source will provide immediate benefits to your game.

To take the KINETIC CHALLENGE and experience the KINETIC EXPLOSION call 1-800-4KINETIC.

EXPLOSION

"The Kinetic is quick and smooth and delivers the power I need to blow the ball past my opponents. There is no vibration and I have no arm problems. It is awesome!"

—John Ellis
World Champion

KINETIC

"The secondary energy source gives more power with less effort, off center shots have more pace."

—Marty Hogan
Racquetball Legend

PRO
KENNEX
RACQUETBALL

A NEW ENERGY SOURCE BETTER SHOTS. MORE OFTEN. LESS WORK.

1

HERE'S HOW IT WORKS.

1 As you swing the racquet forward and hit the ball, kinetic mass inside the racquet head stores energy.

2

2 As the ball leaves the strings, the kinetic mass explodes forward, sending additional energy to the racquet and to the ball.

3

3 Once the ball has left the strings, the vibration you normally feel with an ordinary racquet is damped by the layers of kinetic mass.

Bigger Power Zone

The Kinetic explosion sends more energy to the racquet which, in turn, expands the power zone. Even balls hit off-center shoot off the racquet.

More Accuracy

The explosion also stabilizes the entire hitting surface of the racquet. The result: less twisting and better direction to the ball which means more accuracy.

Less Shock

The Kinetic reduces shock in the frame which means there's less transferred to your arm. That means less fatigue which will increase your efficiency on the court.

PASSAT GLX WILL CHANGE THE WAY YOU THINK ABOUT VOLKSWAGEN.

VERY QUICKLY.

For years, you've thought of Volkswagen as the German-engineered, fun to drive, small car company. Well, things have changed. Take a look at the midsize Passat GLX. It's everything you'd expect from a Volkswagen, only bigger and faster. Passat has room for five adults. And a 172 horsepower VR6 engine that's a technological marvel. Plus Passat comes with 2 years or 24,000 miles of no-charge scheduled maintenance.* Come in for a test drive today and be ready to be impressed. For more information or for the dealer nearest you, call 1-800-DRIVE VW.

*See dealer for details.

Letter From The International Racquetball Tour Commissioner

It is my pleasure to welcome you to the 1995-96 International Racquetball Tour season. The 1995-96 IRT Tour shapes up as the most exciting in the history of professional racquetball with events throughout North America, the prestigious VCI Challenge Cup Series, and increasing television coverage. In addition, IRT professionals will make promotional appearances in Japan, France, Germany, Mexico and Chile this season. The International Racquetball Tour also kicks off its second season of the IRT Spalding Satellite Tour which was tremendously successful in its inaugural season. The Satellite Tour will expand to over 50 events this season featuring the top amateur players in the United States and Canada competing for IRT ranking points and prize money. The Satellite Tour will offer young, up and coming players a chance to develop and enhance their skills as they move toward a full-time commitment to the pro tour.

The IRT Tour features some of the greatest athletes in sports hitting, climbing, diving, and chasing down a green ball moving at speeds up to 180 m.p.h.! The pros reflect every style of play from the ultimate power player rocketing serves and killshots from everywhere in the court to the control artists using ceiling balls, precision passes, and court position to wear their opponents down. Throughout the course of one IRT event you will see everything the sport has to offer at the highest level in the world. The players will thrill,

amaze, and entertain you, leaving you wanting more.

This season the IRT's growing relationship with ESPN and ESPN2 will bring the greatest players in the sport to the racquetball public and the masses this October with four weekly one hour shows. The IRT in conjunction with JM Productions and ESPN have elevated racquetball to the upper levels of professional sports with these televised events.

The IRT's success is based on the support of sponsors, clubs, tournament directors, and YOU, the racquetball fans. It is important also to understand that the IRT continues to grow in many ways due to the tremendous support and sacrifices of the professional players. They are not only great athletes but good role models who I hope you will enjoy meeting during the event.

Enjoy the event and all of the action.

In some sports
you just protect yourself.

In others you can do it *with style*.

Now you can protect yourself in style with impact resistant fashion eyeguards from Leader. Our Vegas and Newport designs feature anti-fog, anti-scratch, shatterproof protection. And they give you unobstructed peripheral vision so you won't miss a beat on the court.

Don't just protect yourself...do it in style with Leader.

CLIFF SWAIN

NUMBER ONE

How do you follow-up the most dominating season in professional racquetball history? Well, you can start off by winning the first two events of the next season. . .

In 1993-94 Cliff Swain won thirteen of the eighteen IRT events to establish himself as clearly the greatest player in the World and perhaps the greatest in history (Swain's self-professed personal goal!). As last season began, it looked as though Swain would continue to dominate the IRT in much the same manner as he had the previous season with wins in New Orleans and Stockton. Tim Doyle was able to keep up with Swain winning the next two events before a fifth event "tiebreaker" finals victory by Swain sent Doyle into a tailspin. Swain followed that Montreal win with three more in a row (Chicago, Baltimore, and Denver) to take six of the first eight titles. Swain showed that he was indeed human for the second half of the season as he "only" won four of the last ten events. The final three events of the season showcased Swain and number two Andy Roberts as Roberts took Columbus before Swain finished the season, as he started it, with consecutive wins in Little Rock and Portland. The Little Rock event was the ESPN Racquetball Championships which will feature the talent and personality of Swain for the country on ESPN and ESPN2 while the Portland event was the 1995 IRT Nationals.

By taking three of the five VCI Challenge Cup Series events, Swain captured the title for that Series, and its beautiful crystal cup, for the second consecutive year. Winning the HEAD Athletic Footwear and Apparel bonus pool was icing on the cake for Swain's great season.

Following a season in which he had a 94% winning percentage, Swain came back with a winning percentage of over 90% in 1994-95, again drawing comparisons to the legendary Marty Hogan in his dominance of the tour. Amongst his competitors, Swain is known for his intense competitive nature and mental toughness but also as a sportsman and gentleman. Swain is well liked and certainly respected by his peers.

Swain began his professional career in 1985 at the age of 18 when he began entering pro events after achieving amateur success in the New England area as well as the 16 & Under AARA National Championship (in 1983). At the Tulsa event in 1985, Swain became the first, and to date only, unseeded player to win a professional tour event. Swain finished that season at the Ektelon Nationals with a victory there as well, firmly establishing himself as a contender on the Tour. Since that first season, Swain has won over 50 professional titles though he sat out two seasons to make an attempt at a professional tennis career. After his first season finishing at number one in 1989-90, Swain decided to try his tennis skills and competed with moderate success in some Satellite Tour events. Swain's intense desire to win pushed him back to racquetball where he recaptured the IRT number one ranking in 1992-93.

Swain's great personality and approachability makes him a crowd favorite at each event. Constantly giving of his time off the court in support of his sponsors, Swain finds himself regularly involved with the racquetball public and fans during clinics, camps, exhibitions and auto-

CLIFF SWAIN

graph signings not only at the IRT events but in the weeks between the events. These travels have taken Swain around the world and he is fast becoming a true international racquetball star and ambassador of the sport.

Swain's personal goals in the sport of racquetball are "to dominate!" and "to be known as the best ever without question!". With seasons like these last two, Swain is well on his way to achieving those goals.

IRT Rules

In general, competition on the International Racquetball Tour will follow the standard rules governing racquetball established by the American Amateur Racquetball Association, except for modifications which follow:

IRT Rule (Modification) 1 GAME, MATCH

All games are played to 11 points, and are won by the player who scores to that level, with a 2 point lead. If necessary, the game will continue beyond 11 points, until such time as one player has a 2 point lead. Matches are played the best three out of a possible five games to 11.

IRT Rule 2 APPEALS

The referee's call is final. There are no line judges, and no appeals may be made.

IRT Rule 3 SERVE

Players are allowed only one serve to put the ball into play.

IRT Rule 4 SCREEN SERVE

Screen serves are replayed.

IRT Rule 5 COURT HINDERS

No court hinders are allowed or called.

IRT Rule 6 OUT OF COURT BALL

Any ball leaving the court results in a loss of rally.

IRT Rule 7 BALL

All matches are played with the *ProPenn* ball. The first, third, and fifth (if necessary) games of the match are started with a new ball.

IRT Rule 8 TIMEOUTS

Each player is entitled to one 1 minute timeout per game.

IRT Rule 9 TIME BETWEEN GAMES

The rest period between all games is 2 minutes.

IRT Rule 10 EQUIPMENT TIMEOUTS

A player does not have to use regular timeouts to correct or adjust equipment provided that the need for the change or adjustment is acknowledged by the referee as being necessary for fair and safe continuation of the match.

ANDY ROBERTS

NUMBER TWO

Following one of the greatest amateur careers in the history of racquetball, Andy Roberts made the move to the Pro Tour in 1989. Since that time Roberts has made his mark on the Tour as both one of the decision makers helping to progress the Tour to today's quality level and as one of its toughest competitors.

Andy Roberts is one of only four men to have won both the amateur National Singles and National Doubles championships and the only one to add a World Singles Championship. Roberts was the Player of the Year for the AARA twice and added an Olympic Festival Singles title, three Intercollegiate Singles, and two Intercollegiate Doubles titles to his incredible amateur résumé. At the professional level, Roberts has won the IRT Nationals twice, including the first time it was televised in 1993 and held the number one ranking during the 1993-94 season.

Mid-season of 1993-94, Roberts experienced a slight knee injury and continued to play until the Pittsburgh event when he aggravated the injury causing him to forfeit in the finals. After a short layoff, Roberts returned for two more events, both finals, before another missed event. Hobbling through the IRT Nationals to secure last season's number three ranking, Roberts then faced off-season knee surgery. Entering this past season, the knee was still questionable but Roberts continued not only his rehabilitation but a remarkable comeback to his top level play. By mid-season, Roberts had come all the way back to win consecutive events in Dallas and Memphis. A semi-final upset in Atlanta was followed by a win in Pittsburgh, his

redemption for last year's finals forfeit. As the season closed, Roberts would face Cliff Swain in the last three finals of the year. After three early season losses to Swain, Roberts dominated Swain in the VCI World Championships final in Columbus, an event in which Roberts did not lose a single game becoming only the second player in IRT history to do so (besides Swain). The last two finals did not go Roberts' way but with four titles and six finals appearances, Andy Roberts was easily the second best player in the World in 1994-95.

Roberts and his wife Kimberly were members of the Memphis State Racquetball Team together (she too was a National Champion!) and are the proud parents of a daughter, Lauren. Andy Roberts is capable of dominating every match and every event, watch out for him in 1995-96.

PROfile: *Andy Roberts*

Home: Cordova, Tennessee

Plays: Right Handed **1st Year on Tour:** 1989

Born: 6/15/65 **Height:** 6'1" **Weight:** 195

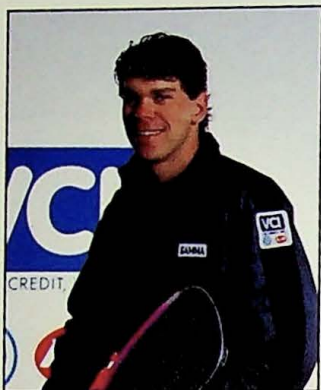

Racquet: Ektelon Fusion

Sponsors: VCI, Ektelon, Cellular One

Career Highlights: Four 1994-95 Event Titles (Dallas, Memphis, Pittsburgh, Columbus), 1993 VCI World Champion, 1993 VCI Cup Champion, 1993 IRT Nationals Champion

**International Racquetball Tour
Tournament Program**

TIM DOYLE

A season which started out with incredible promise as Tim Doyle kept pace with Cliff Swain, was dampened by a mid-season slump. After four events it was two wins each for Doyle and Swain, they met in the finals of the fifth event which was won by Swain in a tie-breaker. From there, Doyle

cooled off and Andy Roberts got hot, slipping past Doyle into the number two ranking. Known as perhaps the hardest hitter on the Tour, Doyle's serve is his greatest weapon

PROfile: *Tim Doyle*

Home: Williamsville, New York
Plays: Right Handed 1st Year on Tour: 1989
Born: 1/3/69 Height: 6'1" Weight: 185
Racquet: E-Force Chaos
Sponsors: VCI, E-Force, Gamma
Career Highlights: Six Career Event Titles
(1990 Salem, 1991 Chicago, 1994 Atlanta, 1994 Riverside, 1994 Arlington, 1995 VCI Doubles)

NUMBER THREE

while his great conditioning and surprising speed keep him in every match. One of the Tour's top performers of the last five years, Doyle has twice finished the season ranked number two and now once at number three. A legitimate threat to win every event, Doyle will likely remain at the top of the rankings for years to come.

MIKE GUIDRY

The youngest of the veterans on the Pro Tour, Mike Guidry has developed into a respected competitor. In the past season, Guidry had two finals appearances, seven semi-finals, eight quarterfinals and only a single round of sixteen loss. That one early loss was the only time Guidry was not

defeated by a player ranked in the top eight. Though he has yet to break through with that first career event win, Guidry has worked his way to the number four ranking

PROfile: *Mike Guidry*

Home: Carrollton, Texas

HEAD

CLIFF SWAIN

To his opponents he is a waking nightmare, but it is a nightmare shared by all. Their descriptions begin to sound all too familiar. "You're on a court warming up for a match and suddenly he appears at the door. He's a nice enough looking guy, kind of like Greg from the Brady Bunch, so, how bad can this be." But then you're playing the match and suddenly the light starts to dim and Greg's head starts to spin around and he's not Greg anymore, he's some kind of animal that's trying to kill you, and you're locked in a small room with him, and your throat begins to emit this sound, and just when you're about

WARNING: 180 MPH SERVES MAY SEVERELY BRUISE YOUR EGO!

to scream you wake up. Thank goodness it's only a dream. But then you realize it's not a dream. You are on a court with Cliff Swain and he is trying to kill you! AAAAAAHHHHHH! The really bad news is, he's playing with one of the most technically advanced racquets in the world today! Good luck! And now Head introduces The New Pyramid Series Racquetball Racquets. The most powerful racquets available anywhere in the world today. Are your palms starting to sweat, your pulse racing? Better get a Head and start causing a few nightmares of your own, after all you never know when Greg may show up!

Introducing **The New Pyramid Series** Racquetball and Squash Racquets. In 1994 Head introduced a revolutionary New Pyramid Construction in a series of four tennis racquets. The response has been tremendous. Their unique light weight and maneuverability combined with their incredible power have caused tennis players around the world to give up their high profile frames for something far better. The secret to the Pyramid Series is the dynamic new Pyramid cross section. Instead of a conventional kidney shape, that compresses in when contact is made with a ball, dissipating power and control, the Pyramid shape

THE SECRET IS THE PYRAMID.

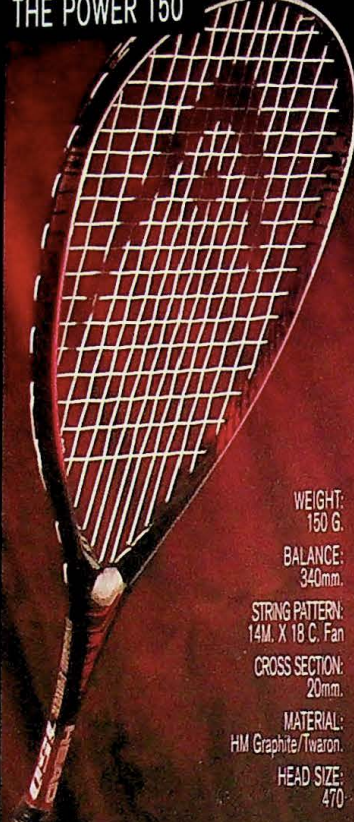

resists that flex and transfers the energy directly to the strings and to the ball. This unique combination of power and maneuverability lends itself extremely well to the needs of racquetball and squash racquets. The Pyramid's tear drop head shape also creates a larger hitting area out near the top of the racquet where players need it most. The **Pyramid Series**. Come feel the power of the Pyramids and we know you'll become a believer.

Tournament Program**

DREW KACHTIK

NUMBER FIVE

Known as one of the fiercest competitors on the Tour, Drew Kachtik was one of five players to win matches at every event of the past season. Without a title for the first time since his rookie year, Kachtik will no doubt return strong and intense in '95-96.

PROfile: *Drew Kachtik*

Home: Carrollton, Texas

Plays: Right Handed 1st Year on Tour: 1988

Born: 8/6/67 Height: 5'10" Weight: 190

Racquet: Ektelon Fusion

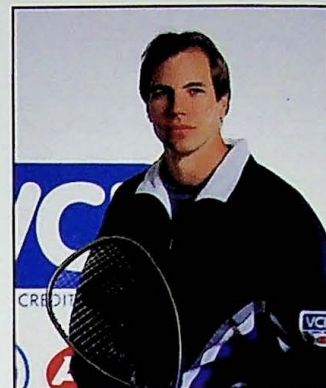

Sponsors: VCI, Ektelon

Career Highlights: 1991-92 Tour Champion

MIKE RAY

NUMBER SIX

Mike Ray's great control and intelligent play gives the power players fits and keeps him winning. Over his long career he is one of the most consistent players on the Tour, and in the 1994-95 season Ray had wins against every top ten player who he faced.

PROfile: *Mike Ray*

Home: Hilton Head, South Carolina

Plays: Left Handed 1st Year on Tour: 1980

Born: 4/8/63 Height: 6'2" Weight: 200

Racquet: Spalding Felon

Sponsors: VCI, Spalding, Kleershot

Career Highlights: 1990-91 Tour Champion

AARON KATZ

NUMBER SEVEN

After finishing law school, passing the Bar, and having shoulder surgery in 1994, Aaron Katz played the best racquetball of his career this past season. As the Tour's "Most Improved Player" Katz earned long overdue respect for his controlling gamestyle.

SUDSYM ONCHIK

NUMBER EIGHT

Sudsy Monchik tested the waters on the Pro Tour in 1994, winning the IRT Nationals. Competing full-time in 1994-95, Monchik won two singles events and the VCI World Doubles to earn the honor of his peers as "Rookie of the Year".

PROfile: Aaron Katz

Home: Dallas, Texas

Plays: Right Handed 1st Year on Tour: 1987

Born: 12/24/63 Height: 5'11" Weight: 180

Racquet: Ektelon Fusion

Sponsors: VCI, Ektelon

Career Highlights: 1993 Las Vegas Finalist

PROfile: Sudsy Monchik

Home: Staten Island, New York

Plays: Right Handed 1st Year on Tour: 1994

Born: 10/12/74 Height: 5'9" Weight: 163

Racquet: Head Big Bang

Sponsors: VCI, Head, Courtesy Sports, Oakley

Career Highlights: Four Career Event Titles

JOHN ELLIS

NUMBER NINE

Home: Columbus, Ohio
 Plays: Right Handed
 1st Year on Tour: 1992
 Highest Career Pro Rank: 9
 Born: 10/4/72
 Height: 5'6" Weight: 150
 Racquet: ProKennex Kinetic Pro
 Sponsors: ProKennex, Power, Leader, Active Ankle,
 Courtesy Sports, PowerBar, VCI

WOODYCLOUSE

NUMBER TEN

Home: Truckee, California
 Plays: Left Handed
 1st Year on Tour: 1989
 Highest Career Pro Rank: 8
 Born: 10/19/65
 Height: 5'9" Weight: 173
 Racquet: Spalding Assault Light
 Sponsors: Spalding, VCI

LOUIS VOGEL

NUMBER ELEVEN

Home: Albuquerque, N. Mexico
 Plays: Right Handed
 1st Year on Tour: 1992
 Highest Career Pro Rank: 11
 Born: 7/30/68
 Height: 5'10" Weight: 175
 Racquet: E-Force Weapon
 Sponsors: E-Force, VCI

BRIAN RANKIN

NUMBER TWELVE

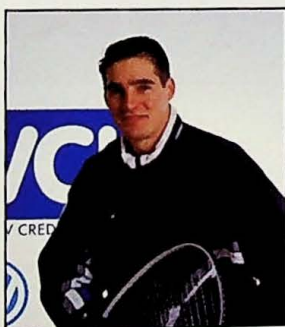

Home: Hazelwood, Missouri
 Plays: Right Handed
 1st Year on Tour: 1994
 Highest Career Pro Rank: 12
 Born: 7/6/70
 Height: 5'10" Weight: 170
 Racquet: Spalding Assault Light
 Sponsors: Spalding, Python, JLS, VCI

ADAM KARP

NUMBER THIRTEEN

Home: Santa Ana, California
 Plays: Right Handed
 1st Year on Tour: 1994
 Highest Career Pro Rank: 13
 Born: 6/14/72
 Height: 5'10" Weight: 160
 Racquet: Ektelon Eminence
 Sponsors: Eliminator, Ripe Plum, VCI

DAN FOWLER

NUMBER FOURTEEN

Home: Wheaton, Maryland
 Plays: Right Handed
 1st Year on Tour: 1992
 Highest Career Pro Rank: 12
 Born: 1/21/70
 Height: 5'10" Weight: 175
 Racquet: Richcraft Rebel
 Sponsors: Richcraft, VCI

ERIC MULLER

NUMBER FIFTEEN

Home: Overland Park, Kansas
 Plays: Right Handed
 1st Year on Tour: 1993
 Highest Career Pro Rank: 15
 Born: 8/7/72
 Height: 5'9" Weight: 170
 Racquet: Spalding Assault Light
 Sponsors: Spalding, Courtesy Sports, PowerBar,
 Python, Kleershot, VCI

RUBEN GONZALEZ*

Home: Staten Island, New York
 Plays: Right Handed
 1st Year on Tour: 1978
 Highest Career Pro Rank: 1
 Born: 7/22/52
 Height: 5'8" Weight: 165
 Racquet: Ektelon Cyrocco
 Sponsors: Ektelon, Revo, Prestige
 Activewear, NYNEX Phone, VCI
 Career Highlights: 1987-88 Tour Champion

**Due to his season ending injury, Ruben Gonzalez was removed from the final rankings, he was ranked number eight at the time of the injury.*

A professional racquetball player, Cliff Swain, is shown from the chest up, holding a racquetball racket. He is wearing a white shirt and a dark cap. The background is a solid brown color.

IRT History

The International Racquetball Tour was formed in 1989 following a season in which the tour had only four events and lacked direction or leadership. John Delaney, CEO of TransCoastal Mortgage, Marty Hogan, Mike Yellen, and Hank Marcus joined together to bring the tour back to prominence. In the following years the IRT worked with great clubs and tournament promoters to build up the tour while bringing more players into the fold.

Since 1989, the IRT has been directed by Tour Commissioner Hank Marcus with the support of an active IRT Executive Board that has put in tremendous amounts of time and energy. The IRT Executive Board is made up of the current top eight ranked players. In 1992 the International Racquetball Tour signed an agreement, now entering its fourth season, with VW Credit, Inc. which legitimized professional racquetball and facilitated television coverage on Prime Network. As the relationship with VCI strengthened, so did their commitment to the IRT which now supports the four event VCI Challenge Cup Series and also supported the IRT's initial television production and involvement with ESPN.

Currently the IRT has a 20 event tour throughout the United States and Canada. The Spalding Satellite Tour was an overwhelming success in its inaugural season under the direction of Eric Muller and will expand to over 50

events for 1995-96 to help develop younger players. During the 1993-94 season, the IRT in conjunction with Penn Racquet Sports developed the new ProPenn ball specifically for the Tour. The new "Official Ball" of the IRT is green for better visibility and was made with a new rubber compound for better and more consistent play. Looking forward, the IRT's progress and focus on bringing racquetball to the worldwide public via television continues to meet with tremendous success. The IRT and ESPN have an agreement in place that will produce four one hour weekly shows on ESPN and ESPN2 this October with more shows planned for the future. All indications are that 1995-96 will be the greatest season in the history of professional racquetball.

In 1992, the IRT adopted Fibromyalgia Research as a cause to support in their charitable endeavors. Fibromyalgia Syndrome (FMS) produces severe, chronic pain throughout the body. FMS symptoms also include fatigue, stiffness, muscle tenderness, and non-restorative sleep affecting over 15 million American victims. Today there is no known cause, treatment, or cure for FMS. For more information and/or to make a tax deductible contribution; write to:

FMS P.O. Box 500 Salem, OR 97038

From the Pros

"Play under control & reckless at the same time, be intense & relaxed at the same time. Play as if your match is the most important thing in the world while knowing that it's just a game. - All of this equals mental toughness."

Cliff Swain

"Always play within your limits. Try to play smart, consistent racquetball."

Mike Guidry

"The last one to hit the front wall wins!"

Mike Ray

"Never let yourself be limited by other peoples expectations for you!"

Aaron Katz

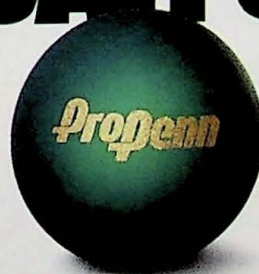

"Settle for nothing less than your best!"

Woody Clouse

"Develop self confidence & awareness, the motivational drive to succeed, the feeling of a champion, and practice patience."

Ruben Gonzalez

HOW TO BREAK A RADAR GUN.

Until they start posting speed limits in racquetball courts, you'll keep looking for more speed. Well, here it is. If you want less speed, play croquet.

Created for and with the help of the professional players of the IRT

Look down the throat of the most powerful new technology in racquetball.

New 16.2" LongString™ Racquets

Chaos 190g

Longstring technology for players who increase power with a faster swing.

Havoc 230g

Longstring technology for players who increase power by putting more mass into the ball.

Revolutionary LongString Concept

Longest racquet face (16.2") and mainstrings (16.0") in racquetball. Unique throat design, handle and Tri-Taper

Frame enable E-Force to lengthen mainstrings from 1.5" to 3" more than competitors' racquets—generates ripping new power.

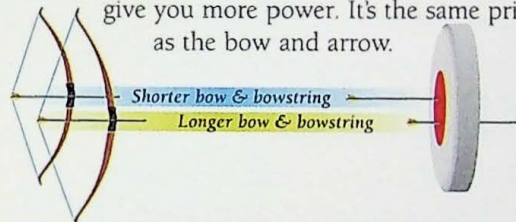

Adds 10 to 15 extra inches in combined length to 10 centermost main strings

■ traditional mainstring length
■ LongString mainstring length

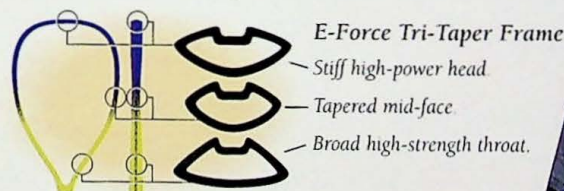

More Power from Longer Mainstrings and Racquet Face

For the same effort, longer mainstrings and racquet face give you more power. It's the same principle as the bow and arrow.

Stiffness is customized throughout the frame to control and release the awesome power of Havoc and Chaos.

Don't Come Up Short

Get more mainstring for your money. Get in-your-face down-your-throat power with 16.2" LongString technology.

Tim Doyle,
Prototype power professional. One of the tour's most feared competitors.

This chart represents each meeting between the top sixteen players during the 1994-95 season and their head-to-head results. Reading down the left side vertical column you will find the winner of the matches against the players listed across the top horizontal row. For example; during the 1994-95 season, Cliff Swain defeated Andy Roberts 6 times, Tim Doyle 2 times, etc. A zero (0) indicates that either the players did not play or that the player in the left column did not defeat the player in the top row during 1994-95.

From the Pros

Favorite City Visited on the Tour:

Almost unanimous – Las Vegas, the “extracurricular” activities are a fun diversion.

Favorite Club Visited on the Tour:

Merritt Athletic Club; Baltimore, for its great viewing and enthusiastic fans. *Honorable Mentions:* Sawmill Athletic Club; Columbus, Racquet Club of Memphis, Planet Fitness; Phoenix, Racquet Club of Pittsburgh.

Favorite Event of the Past Season:

VCI Worlds; Columbus, for its amenities and enhancements for both the players and the spectators. *Honorable Mentions:* Dallas, Las Vegas, Pittsburgh, Riverside.

Most Exciting Match of the Season:

Cliff Swain vs. Sudsy Monchik in the finals at Phoenix. Monchik wins 11-2, 5-11, 11-9, 10-12, 12-10 for his first win of the year.

WHAT MORE WINNING PLAYERS SHAKE WITH AFTER A MATCH.

The new Penn Tac Racquetball Glove ensures you'll have both a strong grip on your racquet and your opponent's hand while you're saying: "Hey, better luck next time."

The Official Glove of the IRT.

Racquetball Terms

Ace - A serve that goes unreturned by the receiver, gaining a point for the server.

Backhand - Basic stroke hit across the body, starting on the side opposite the racquet hand.

Back wall - The rear wall.

Bottom board - The lowest point on the front wall; the target for kill shots.

Bye - When a player does not have to play a match in the first round of the tournament in order to advance to the second round.

Ceiling shot - A defensive shot that hits the ceiling before the front wall, landing deep in the back court.

Center court - The area of the court directly behind the short line and in the middle of the court. Position in this area gives the greatest control of the game.

Cross-court pass - A shot from one side of the court that passes the opponent on the other side.

Defensive shot - Any shot designed to maintain the rally, such as ceiling, around-the-wall, and "Z" shots.

Donut - An 11-0 game. The loser is said to have received the "donut".

Down the line shot - A shot hit near a side wall that hits the front wall directly and then rebounds back along the same side wall.

Draw - The process of selecting the starting positions of players in the tournament based upon rankings. Also refers to the "drawsheets" or brackets posted to indicate winners of each round.

Drive - A powerfully hit ball that travels in a straight line.

Drive serve - A hard hit, low serve.

Five-foot line - The broken line 5 feet behind and parallel to the short line. Also called the receiving line, and marks the boundary of the safety area on the return of serve.

Foot Fault - Illegal serve in which the server's foot touches the area outside of the service area during his service motion.

Forehand - A fundamental stroke hit across the body from the same side as the racquet hand.

Forfeit - A loss for a player who does not appear for a tournament game or is forced for some reason (i.e., injury) to resign during a match.

Front court - The first 15 feet of the court, from the front wall to the service line.

Hinder - Interference or screen of the ball so that the opponent does not have a fair chance to make a shot.

If a hinder is called, the point is replayed unless the shot which could not be taken was clearly offensive. If so, the referee may call an avoidable hinder resulting in a point or sideout.

IRT (International Racquetball Tour) - The official governing body of and the annual series of events for men's professional racquetball.

Kill shot - An offensive shot hit hard and low, which bounces twice before an opponent has a chance to return it resulting in a point or sideout.

Lob serve - A serve that rebounds in a high arc, landing just short of the back wall.

Long serve - A fault serve that hits the back wall before hitting the floor.

Match - A complete racquetball contest made up of one player winning the best three out of five games. All games are played to 11 points which a player must win by two points.

Offensive shot - A shot designed to end the rally.

Out serve - Results in a loss of service. May be a fault serve, such as: short serve, long serve, ceiling serve, three-wall serve, out-of-court serve, foot fault, and missed serve. Also includes non-front wall serve, touched serve, crotch serve, illegal hit, safety zone violation, 10 second violation, and fake service.

Passing shot - A knee-high or lower shot hit out of an opponents reach that bounces twice before the back wall. May be cross-court or down the line.

Pinch shot - A low shot aimed into one of the front corners, hitting first the side wall then the front wall.

Plum - A promising set-up or easy offensive opportunity.

Rally - An alternating exchange of shots after the serve that continues until play ends resulting in either a point or sideout.

Ranking - The relative ability of competitors based upon the results of previous IRT tournaments of the current season and used to set the draw.

Receiver - Player awaiting the serve.

Referee - Makes all of the judgement calls and decisions regarding the rules during a match and keeps the score. His call is final unless both players disagree with that call.

Reverse pinch shot - A pinch shot which is hit cross court to the opposite corner from the side of the stroke.

Roll out - A perfect kill shot that hits the front wall and floor crotch and rebounds without a bounce by rolling back into the court. A sure point because it is impossible to retrieve.

Screen - A serve or shot that passes so close to the shooter that the receiver's view is obstructed. Screen balls are replayed without penalty.

Serve - The act of putting the ball into play to begin the rally.

Set-up - A shot during a rally that should be an easy scoring chance for the hitter.

Short serve - A fault serve that bounces before passing the short line; the back line of the service box.

Sideout - The change of service after a rally lost by the player who served.

Skip ball - Any shot that hits the floor before reaching the front wall.

Splat - A pinch shot hit from very close to the side wall at high speed. Named for the sound of the shot when it rebounds to the front wall and caroms at a sharp angle.

Three wall serve - A fault serve which touches the front wall then both side walls before it bounces.

Time-out - Each player is allowed one 1 minute time-out per game.

VCI (Volkswagen Credit Inc.) - The major sponsor of men's professional racquetball including the four event VCI Challenge Cup Series.

Wallpaper shot - A shot or a lob serve that hugs the side wall and is very difficult to return.

"Z" shot - A shot or a serve that hits the front wall near a corner then hits the side wall, bounces on the floor, and then hits the other side wall near the opposite corner in the back of the court.

1994-95 Player Awards

By vote of the top sixteen International Racquetball Tour players, the IRT has selected its first annual awards for its own players. Four awards were voted upon; Player of the Year, Most Improved Player, a Sportsmanship Award, and Rookie of the Year. For the purpose of these awards, a "rookie" was defined as player competing on the Tour full-time for the first time. The award winning players were honored at the banquet during the Professional Nationals in Portland and each received a commemorative plaque. The winners were:

Player of the Year:

Cliff Swain

Most Improved Player:

Aaron Katz

Sportsmanship Award:

Mike Ray

Rookie of the Year:

Sudsy Monchik

Cliff Swain

streak

OFFICIAL RACQUET
INTERNATIONAL
RACQUETBALL TOUR

THE ASSAULT SERIES, TAKING POWER TO THE NEXT STEP

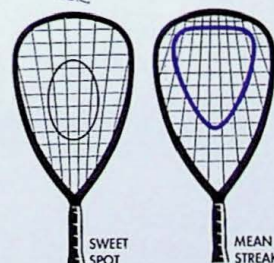

Assault Series racquets have already become legends on the court with their lightweight, ultra stiff frames. In fact, our graphite and graphite/spectra fiber constructed racquets have proven in independent tests to be the stiffest in the industry. It's this shock absorbing, vibration dampening make-up that gives the Assaults their awe-inspiring power.

Spalding's patented Reverse Sunburst string pattern re-defines the traditional "sweet spot." Located at the upper end of our new Assault Series Racquets, The Mean Streak was developed with the input of our tour pros who are always grasping for more power.

The Mean Streak is anything but sweet, in fact, it's downright mean, just ask your opponent when you're helping him off the floor. Combine the Mean Streak with the Assault Series' lightweight, incredibly stiff frames and you've got your hands on some awesome power.

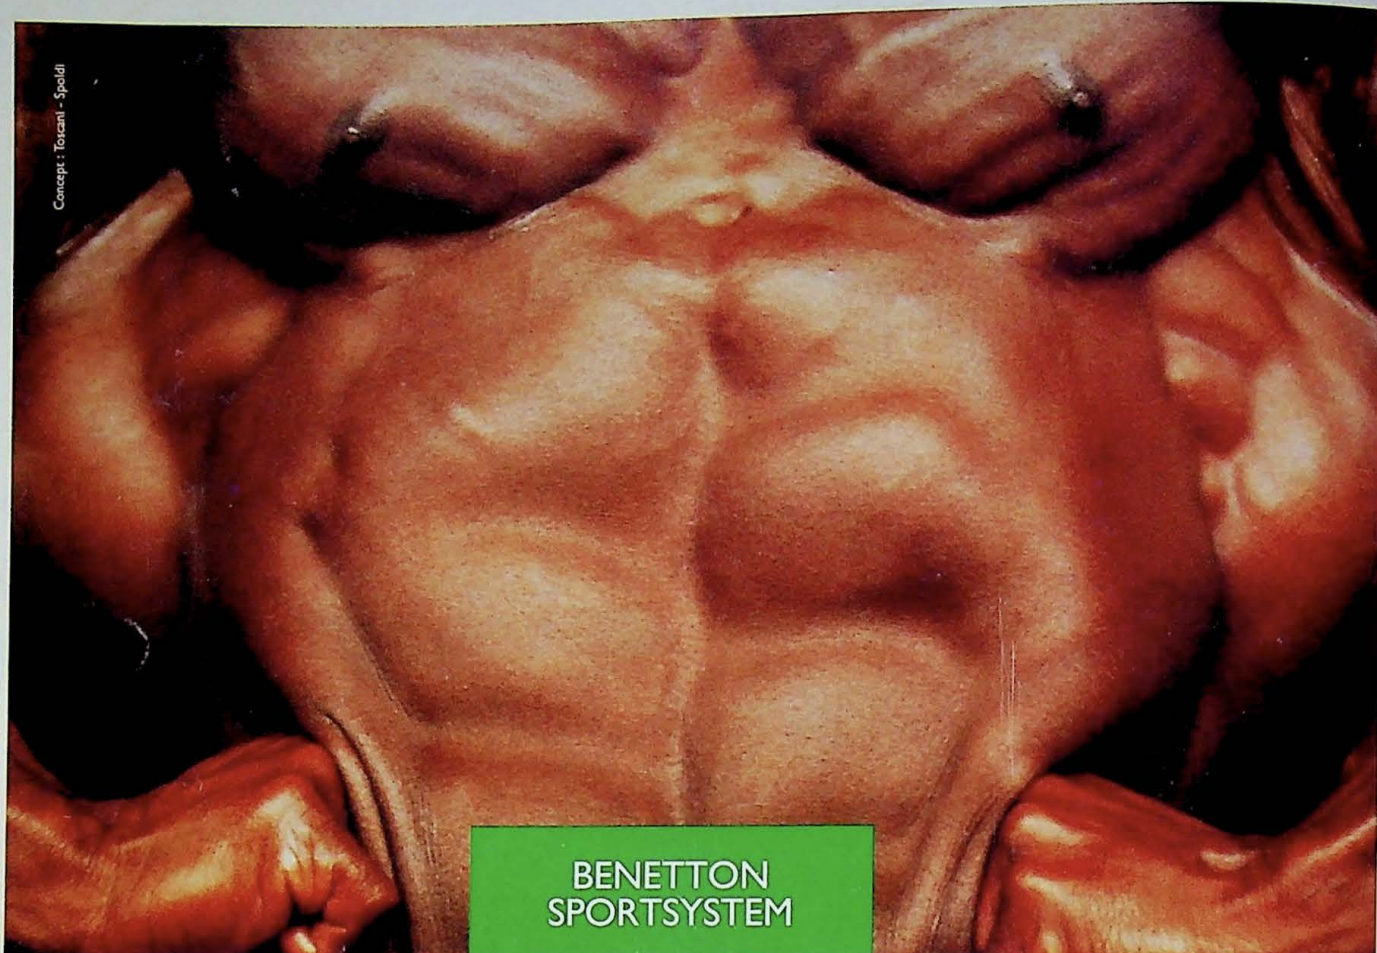

Do you want to be meaner on the court? Then go to your racquetball pro shop or sporting goods store and look for the latest Assault Series racquets. When it comes to making racquets, Spalding doesn't play games.
