AARA CODE OF ETHICS

In keeping with the Constitution of the American Amateur Racquetball Association, the following Code of Ethics is hereby accepted as responsibility to stimulate the interest of people in healthy sport participation through racquetball.

The spirit of the Code of Ethics is to summarize principles of behavior we should be willing to impose upon ourselves. As players we need to bring credit to the sport of racquetball in the eyes of spectators, media, sponsors, and other players.

The Tenets of the Code of Ethics are as follows:

(These Tenets apply to everyday play unless otherwise specified)

1. Safety First. Whenever possible, hold up your shot or movement rather than risk injury to your opponent.
2. Give your opponent the benefit of the doubt. Play the rally over if you disagree. If in doubt of your own shot, call it down or play it over. In tournaments accept the decision of the referees and or linespeople. Don't argue or enlist the aid of spectators in making a call.
3. Offer a hinder whenever you obstruct your opponent's shot. Always attempt to clear your opponent's hitting lane.
4. Always call the score and serve before you begin to put the ball into play.
5. Know the official playing rules and or specific tournament rules and abide by them always.
6. Play your best always and maintain continuity of play. Do not stall, sulk, complain, ridicule your opponent, yourself or the officials in the tournaments. Never make a mockery of your match whether winning or losing. Do not use any profanity or any loud or abusive language during the match.
7. As a courtesy, show up early for your match with proper attire and equipment. If time permits allow your opponent the use of the court alone for warm up if he/she requests. Do not withdraw from a match or tournament except for illness, injury, or personal emergency. Try to play opponents of equal or higher caliber whenever possible. Sandbagging is not within the spirit of competition.
8. Be prepared and willing to referee and/or line-judge whenever called upon during tournaments. Learn to referee as quickly as possible and attend certification clinics whenever you can.
9. Coaching is not encouraged during tournament matches except during time outs and breaks between games. Do not interfere with of participate in on-court matters as a spectator.
10. Win and lose in the spirit of good sportsmanship. Be gracious in victory and without excuses in defeat. Shake hands at the end of every match.
