AARA 1989 Regionals at Wallbanger Court Club Baton Rouge, Louisiana April 6, 7, 8, & 9, 1989

****Regionals **Regionals****
The 1989 Ektelon Regionals are here
hosted by
The Wallbanger Court Clubs

April 6, 7, 8, & 9, 1989

I'm so excited and ready for some great competition. Ya'll should be ready, too. Let's show the Texans how racquetball is played, Louisiana style. This tournament is going to be great competition, great fun, great food which all adds up to super event.

I suggest everyone reconsider what division they are going to play. This is a national level tournament, and just about everyone should drop down one division. Play wherever you feel most competitive, just make plans to play.

We have had a great response from the folks in Texas, they are coming.

See you there.

Good shooting
Paul

Points - An Important Issue

The ranking committee has come up with a slightly different format in hopes of eliminating some problems we have had in the past. In the past each division was based on a different level making players of higher divisions look like they accumulated more points. This type of point accumulation made the divisions appear lopsided. Now in order to keep the ranking systems consistent, all divisions will use the same format.

The advantage to this new system is your ability to accumulate points in your own division even when a tournament is forced to combine a bracket (*Example: A & B is combined due to the low number of entries*). The Points you receive will be entered into the division you signed up for. We feel this is a definite improvement overall.

Another suggestion that has been proposed to the tournament directors is the usage of "point spotting". This can be used when a division is combined so the lower division player can still be competitive. If, for example, a B player is playing an A player; the A player will give the B player 3-6 pts and the score at the start of each game (the score will be 4-0 or 6-0 before the 1st ball is served). We do not want to discourage the players and want the competition to be fair. We hope this answers some questions and problems we have been dealing with in the past.

If you have any questions or suggestions feel free to contact me at your convenience.

Sincerely
Marcia Richards

Co—Chairman's Corner

Olympic Racquetball? A dream coming true. That's right, racquetball is going to the Olympics. Hopefully, a full participation sport in 1996.

Racquetball has achieved the fastest Class A sports status ever. What that means is racquetball in the Pan Am games, a training center and a bigger share of the Olympic training budget and all to help our new great sport grow to it's fullest potential.

I traveled to Colorado Springs, Colorado in January. Yes the annual AARA National Leadership Training Seminar. All the leaders of all the state associations gather to exchange ideas and to focus on the direction of racquetball. The consensus around the country is that more grass roots development is essential to the growth of our sport. The grass root development has to come from the clubs, and you, the players are the ones who have to encourage the owners to start this development. Talk to your club about it today.
