

Why Your Clinic Needs a Healthcare AI Consultant

70% of AI pilots fail — not because the technology is wrong, but because no one actually implements it. IPSAI bridges that gap with hands-on, clinic-specific expertise and RAG-powered AI built around how you practice — not a generic template.

THE IMPLEMENTATION GAP

Vendors do demos. Big consultancies charge **\$500K minimums**. Neither sits inside your clinical workflow and makes the technology work. Specialty clinics — dermatology, orthopedics, GI, oncology — are buying expensive ambient AI tools with zero implementation support. The technology is real. The support isn't.

HOW IPSAI DEPLOYS RAG AI IN YOUR CLINIC

Retrieval-Augmented Generation (RAG) grounds AI outputs in *your* clinic's own data — EHR notes, payer rules, specialty protocols. Fewer hallucinations. Faster prior auth. Documentation that reflects how *your* physicians actually practice. IPSAI configures and deploys RAG-powered tools built for your workflow — not a

SERVICES & OUTCOMES

AI READINESS AUDIT

\$5,000 · Fixed Fee · 2–3 Weeks

Know exactly where you stand before spending a dollar on AI.

- EHR compatibility matrix vs. leading ambient AI vendors
- Vendor comparison with specialty-specific recommendation
- Prioritized 90-day implementation roadmap
- ROI model — conservative, base & optimistic scenarios

FRACTIONAL CAIO RETAINER

\$3,500/mo · 10–15 hrs/mo · 3-Month Min.

Senior AI leadership. No full-time hire required.

- 2x monthly strategy calls (CMO / Medical Director)
- Vendor performance monitoring & contract optimization
- AI governance policy drafting & maintenance
- Monthly staff training — virtual, 45–60 min

AMBIENT AI IMPLEMENTATION

\$9,000 · Project-Based · 6–10 Weeks

End-to-end deployment built around your clinical workflow.

- Vendor selection, EHR integration & BAA execution
- Provider onboarding + custom workflow redesign
- 30–40% reduction in per-note documentation time
- 85%+ staff adoption within 60 days of go-live

PRIOR AUTH AI + STAFF TRAINING

\$10,000 · Project-Based

Recover denied revenue. Build a team that uses AI confidently.

- RAG-powered automated prior auth submission & tracking
- Denial pattern analysis + accelerated appeals workflow
- AI literacy program with change management playbook
- Transforms a pilot into permanent practice change

Risk-Free. Money-Back Guarantee.

Audit doesn't deliver clear, actionable direction? **You pay nothing.** No fine print. No obligation.
