

# 26TH OCTOBER 2018 LIVE CELL MICROSCOPY

**In depth assessment & monitoring tool for your personal health care choices.**

Learn about this type of microscopy and its use for assessing and assisting with your health. Challenging imbalances will be seen easily under high resolution. Use the information found within your cells to guide you and your alternative health care physician! Testing qualifies within your Health Spending Account. See your extended health policy for more.

**DISCOVERY &  
INFORMATION NIGHT  
FOR LIVING WELL.**

**Your Terrain.  
The Darkfield view of  
degeneration,  
stresses, mysterious  
body pain & toxicity.**

**Find out why you feel  
the way you do, why  
some things just are  
not working, plus so  
much more.**

**Live Cell vs Labwork**

**SIMPLE CHANGES FOR  
JOYFULL LIVING.**
