# About Us

RDM Mechanical pride ourselves on being a comprehensive solution provider for all your mining, transport, and construction needs in Western Australia.

With our expertise in providing mobile plant maintenance personnel, and our new range of services, including the hire of quality mobile plant and provision of tailored training packages, we offer a comprehensive solution that covers all your requirements.

We deliver consistently high-quality finishes that ensure your assets run efficiently and safely.

Whether you need equipment, training, or labour, trust RDM Mechanical to provide a complete solution that meets your needs.

## Core Values

COHESION

OPTIMISM

RESILIENCE

EXCELLENCE

# Team RDM

## WARREN AXEL

---

### DIRECTOR

---

With 30 years mechanical experience, Warren understands the positive impact that confident, skilled tradespeople can make to a worksite. With the establishment of RDM Mechanical, his vision was to create an organisation where staff are valued and respected, and where they are given the opportunity and support to succeed.

## LIZ AXEL

---

### GENERAL MANAGER

---

Liz holds a Degree in Indigenous Studies from UniSA and a Cert IV in Coaching and Mentoring. With a strong sense of social justice, she has chosen to use the skills developed during her 15 years administration experience to support projects and businesses she feels passionate about.

# Available Services

## Field Service Support

RDM Mechanical Field Service Technician team are specialists in mining equipment maintenance. All staff are fully qualified, and job ready with current police clearances, pre-employment medicals arrive in vehicles fully specified to mine site safety requirements.

## Shutdown Support

As shutdown contractors, we can provide support with both shutdown planning and maintenance. We understand the sector, your assets and the strong safety and compliance requirements we need to meet to work on them. Following our tried and tested process, we start with a documented plan to ensure a smooth process..

## Rostered Support

RDM Mechanical can also provide ongoing rostered labour to mine site maintenance departments to assist with staffing needs. Our employees specialise in Surface, Construction, and Underground Earthmoving equipment and are available to suit your specific roster setups with both DIDO and FIFO options available.

# Available Trades

We value our staff, they are our greatest asset!

Our qualified and experienced employees are made up of a mixture of those wanting to work in Perth metro workshops, those wanting to work in remote areas, and those wanting the flexibility to move between the two.

Our core group of tradespeople consist of:

## HD Diesel Mechanics

Specialists in the repair and maintenance of heavy vehicles and plant equipment, our team of HD Diesel Mechanics are able to repair and maintain your assets to ensure they are working in top condition. Whether you're looking to organise routine maintenance, or looking for an expert to diagnose and repair faults, we have the people you need to make it happen.

## LV Mechanics

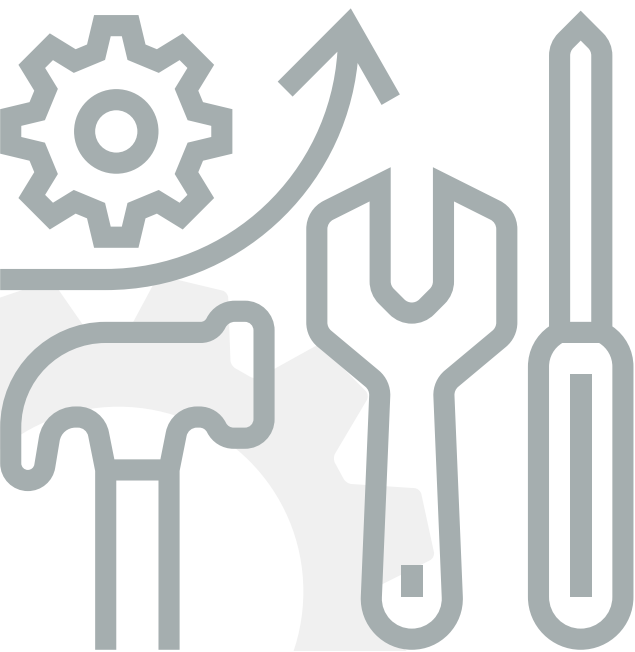

Our team of LV Mechanics have the qualifications and skills to inspect, maintain and repair mechanical parts of cars, vans and trucks. Working across many makes and models, our mobile service makes it convenient for our clients to have their vehicles serviced when and where it suits.

## Boilermakers

Highly skilled in building, testing and repairing of all types of fabricated metal, our team of Boilermakers have a mobile welding truck ensuring that we can always get to you, and your job.

## Auto Electricians

Working in collaboration with our HD and LV Mechanics to offer end to end servicing of your fleet, Auto Electricians skillset is relevant to all heavy and light equipment with internal electrical systems. Our team of Auto Electricians are strong fault finders following a tested procedure, keeping costs down for our clients by ensuring that diagnosis time is limited.
