STAINLESS STEEL FRYER GUARD

**Universal design

**Durable 18 gauge stainless steel

This splash guard has a universal design that allows it to mount easily onto the side of almost any fryer. It measures 24" long by 16" high to accommodate most fry pots and provide ample protection against flying oil.

Length	Height	Cost
24"	16"	\$ 90.00

(NO DISCOUNT)

Fried foods are a staple of any good restaurant menu, but these treats use a lot of oil and can make a lot of splatter on your walls, floors, and neighboring equipment. This universal splash guard is a simple way to help keep the oil from getting where you don't want it, and makes cleaning a lot easier.

GAMENZA INC.

JUMBO GRILL AND ROTISSERIE

Jumbo Grill and Rotisserie is a professional BBQ with exceptional characteristics that make it unique and different than all the others currently in the market. It was created in the United States by mechanic engineers with more than 20 years of experience. It was designed to be both BBQ and oven with a temperature control. To use the Jumbo Grill and Rotisserie, first, it is necessary to turn on the three pilot lights which at the same time turn on the burners. It does not have spark plugs for ignition, so it eliminates the risk of explosions caused by residual gas in the system because it is necessary to open the BBQ's cover to turn on the pilot lights. The burners are located one foot above the grill. In this way, all the fat distills below them and above two trays where it is kept for its removal afterward. Thus, it prevents the fat from burning, a very common feature in conventional BBQs.

Due to its productivity, safety, and quality, the Jumbo Grill and Rotisserie is highly recommended for a commercial usage (in restaurants, touristic places, cafeterias, ranches, etc.)

Parts Include:

- (3) BBQ grills
- (1) broiler for roasting,
- (1) Estrella broiler
- (1) stainless steel bar grill
