

GLDA- COVID-19 DPS Testing Protocols

The purpose of the COVID-19 protocols at GLDA is to prevent the further spread of the COVID-19 virus. GLDA understands that some of these measures may be an inconvenience to those persons visiting a GLDA testing facility, but after consultation with those in the medical field and by following CDC recommendations, GLDA management feels these protocols are the best method for keeping both our customers & GLDA Staff members safe while still having the ability to conduct the DPS ROAD Test.

Customer Protocol

1. **ALL CUSTOMERS** entering a GLDA testing facility **MUST** wear a cloth mask at all times.
2. Only one (1) person may accompany the person taking the DPS Road test. (The Person taking the test & one additional person) This includes children.
3. Social Distancing practices will be followed at all times. Customers will remain a minimum of 6 feet apart.
4. GLDA Customers must agree at time of registration to allow GLDA Examiners to spray Lysol disinfectant on the contact surfaces of the vehicle used for testing, prior to the DPS Road Test at GLDA.
5. During registration & again upon arrival at a GLDA testing facility customers will be given the COVID-19 symptoms questionnaire. If the customer or the person accompanying the customer displays any symptoms or answers yes to any of the questions on the questionnaire they will be required reschedule at a later time and date.
6. GLDA staff members will ask a customer with ANY symptoms of COVID-19 to leave the building and to reschedule the test time at a later time and date.
