

Sermon Title and Social Caption Prompt:

I'm uploading a sermon to YouTube and need help crafting *5 standout sermon titles* and *5 compelling social media captions* that maximize engagement and cultural resonance. Assume the creative voice and strategy of churches like Life.Church and Church on the Move—bold, clear, modern, and emotionally charged.

- The sermon titles should be:
 - Clear and curiosity-driven
 - Scroll-stopping and emotionally resonant
 - Optimized for YouTube discoverability
- The social media captions should:
 - Hook the viewer with urgency or tension
 - Use modern, culturally aware language
 - Drive clicks without feeling like clickbait
 - Feel personal and relevant to real life

If needed, ask for the sermon's core theme or takeaway before generating content. List the 5 sermon titles first, followed by the 5 matching social media captions.
