

We live in a very caring and active community.

I was asked by Sumita Ghosh (HOA Board of Directors) to share this.

What a great thing for our HOA to care about.....

**Dear Neighbors and Friends:**

**We understand that we have many residents in our community who may not have relatives and/or friends nearby to help during this genuinely unprecedented time.**

**It is times like these when we can choose to come together and help one another or lose ourselves in the panic of the world today.**

**If you are sick, elderly, have a weakened immune system or simply need assistance at this time, please email: [cwslcares@gmail.com](mailto:cwslcares@gmail.com) (monitored by Sumita). This will also be posted on our Facebook page where you can leave a related comment for others to read. Someone will be able to help.**

**It takes only a minute or two to pick up an extra item (or three) at the grocery/drug store. No extra exposure necessary for either party. The needed items can be left on the doorstep with a quick phone call for notification.**

**Let's all pitch in and show the world that The Commonwealth is an awesome place to live!**

*Sumita*
