Core Capabilities

- Administrative and general management consulting
- Operational assessments and business diagnostics
- Business process improvement and workflow redesign
- SOP development and process standardization
- KPI, dashboard, and performance-management system design
- Leadership cadence, accountability, and operating rhythm design
- Implementation support, change execution, and service delivery improvement
- Logistics- and transportation-adjacent operational advisory support

Differentiators

- Operator-led firm grounded in real-world execution, not theory-only consulting
- SBA-certified SDVOSB and VOSB with commercial, state, and federal positioning
- Deep leadership experience across distributed, route-based, and multi-site service operations
- Strong fit for agencies and primes seeking low-friction operational improvement support

Past Performance

Anonymized Prior-Role Experience - Municipal Service Operations

Led operational stabilization and performance improvement for a publicly awarded municipal service contract in Southern California after go-live. Scope included frontline accountability, vendor and supplier strategy, service reliability, customer experience, and cost discipline within a complex regulated environment.

Project Manifesting - Small Business Operating System Buildout

Supported a small-business client with project structure, lead-to-cash workflow design, reporting cadence, and project tracking tools to improve visibility, execution discipline, and follow-through. Work emphasized practical governance, repeatable process design, and owner-friendly operating routines.

UltraRose Xpress LLC - Cargo Van / LTL Startup Advisory

Advised an emerging cargo-van and LTL business on launch planning, operating model design, service positioning, cost structure, contracting readiness, and delivery workflow foundations. Support focused on building a credible, execution-ready platform for time-sensitive logistics services.
