Care Bags

Because children in care matter.

Our mission is to support children in care and children at risk across Western Australia, helping every child feel valued, supported and reminded that they matter.

Every child and young person deserves dignity, comfort, connection and the reassurance that someone cares.

Children and young people can face incredibly difficult circumstances, often with few belongings of their own and little sense of stability. Through practical support, comfort and connection, we aim to provide more than just essential items.

They matter. They are valued and someone cares.
