

Project Manager - IOT

At SANDT, we pride ourselves on being at the forefront of IT/OT convergence strategy and technology. We are seeking a Project Manager who will lead our IT/OT convergence projects, ensuring that our clients in the technology sector receive top-tier consulting services. The successful candidate will possess a blend of technical knowledge, leadership skills, and a deep understanding of IT and OT technologies and their industrial application. As project manager you will work closely with a business partner who will manage the client relationship, ensuring a seamless integration of our technical solutions with the client's need and strategy.

Key Responsibilities

Technical Solution Delivery:

- Oversee the end-to-end delivery of IT/OT convergence solutions, ensuring they align with client technical requirements.
- Coordinate with the technical team to design, develop, and implement solutions tailored to client needs.
- Develop detailed project plans, ensuring timely and efficient project execution.
- Coordinate with internal teams and external vendors to ensure project success.

Stakeholder Management:

- Engage with client technical teams to gather requirements, address concerns, and provide updates on solution delivery.
- Regularly update stakeholders on project progress.
- Address and resolve any issues or concerns raised by stakeholders.

Resource Management:

- Ensure optimal allocation and management of resources, both internal and external.
- Contribute to the talent development program of your team members.

Technical Knowledge & Tools

- Project Management Software: Proficiency in tools like Microsoft Project, JIRA, or similar.
- Technical Understanding: Deep understanding of IT/OT systems, convergence challenges, and the technological B2B market landscape.
- Development skills: Familiarity software and/or hardware development

Qualifications

- Bachelor's/master's degree in computer science or engineering.
- PMP certification or equivalent.
- Proven experience in managing technical projects in IT/OT convergence, preferably in an industrialised environment.
- Strong technical background with a clear understanding of IT/OT convergence challenges and solutions.

Personal Attributes:

- Exceptional leadership and client-facing skills.
- Analytical mindset with strong problem-solving abilities.
- Technical passion for everything related to connected systems.
- Ability to work in a dynamic, fast-paced consulting environment.
- Fluent in Dutch, French & English
