

Our Mission:

Chicago Chess Academy was founded with the sole purpose of offering affordable Chess classes, and engaging students in a friendly environment where they can make friends, while at the same time improving their intellectual abilities.

The main goal is to provide students with a fun and innovative way of learning the game of Chess while at the same time, teaching and building many skills that are also associated with academic activities. We strive to provide an educational way for students to grasp the basics and improve not only in chess but also in their educational goals.

Chess Programs:

We offer three main chess programs: After school chess club, Chess camp, and individual Chess instruction.

Materials Needed:

We provide everything the students need. All we ask is for you to allow us the use of one of your rooms. We bring everything, full Chess sets a lesson plan with fun worksheets and a demonstration board for the lesson of the day. All sessions end with kids earning both a trophy/medal, and a certificate of successful completion.

Our Curriculum:

Chicago Chess Academy is designed for all levels of young Chess players.

The students are divided into three categories beginning with Novice players, Intermediate players as well as Advanced players. As a student learns and advances, he or she is promoted to the next level.

The classes serve as a tool to help young students build a vast array of skills, ranging from development in concentration, logical thinking as well as mathematical performance.

We offer a variety of classes that are tailored to fit the students needs.

Benefits of Chess:

Playing chess engages both hemispheres of the brain. Research indicates that kids who play chess frequently enhance their visual memory and focus skills. Chess fosters logical thinking, critical analysis, and creativity. It also enhances problem-solving abilities, imparts strategic planning and foresight, diverts attention from screens, and fosters social connections!
