Circle Rocking S Children's Farm therapy cats on the job

SUBMITTED

Circle Rocking S Children's Farm therapy cats Shoshana and Elliot worked at nursing homes in Illinois for their annual visit this past week.

The cats look almost identical. Both cats are pure bred Maine Coons.

Therapy animals have all their shots, nails clipped and are to remain still no matter how rough the handling. These cats lay in beds, sit on laps, get hugs and enjoy an occasional belly rub.

Also, a reminder the matching grant is still on and the farm really needs donations this year. The Blessing of the Animals is also scheduled for Sunday Sept. 20 at 1 p.m. which will include Civil War living history programs and a car and tractor show.
