Pittsburgh Pastoral Institute

Career Assessment and Development Program (CAD)

CAD is designed to provide a psychological assessment for those in ministry and ordination candidates.

The purpose of the assessment is to provide a personality and career profile, which may then be used by the referring agency to aid in its decision-making concerning the applicant's vocation. It is not the purpose of the psychologist either to make a decision for the referring agency or to assess the legitimacy of the individual's call to the ministry. The assessment is only one source of data used in the process by which the denomination "affirms" or "does not affirm" an individual's call to ministry. The church has a right and obligation to seek out the best individuals.

First the candidate needs to complete fully and submit the application. Second, schedule your proctored exams which typically are on Wednesday's from 10AM – 3PM (testing takes approximately 4-5 hours), and the coordinator will be with you in entirety. Third, your exams will be evaluated and Donna Korczyk, PhD will call you to schedule a one-on-one session. The assessment will be provided to the Candidate and the religious governing body administration specified. The full cost of the program is \$1,100.00/\$150.00 minimum deposit.

Our address is 6324 Marchand Street, Pittsburgh PA 15206. We are just two doors down from Calvary Episcopal Church off Shady Avenue and you may park in the gravel portion of their parking lot and walk down Marchand Street to our front door where you will see our yellow door and our logo.
